European Office: Simon Homburgstraat 21 • 5431 NN, Cuijk, NL

About Us

Accutome is entering our fourth decade in the ophthalmic industry. The three major traits that keep the Accutome brand growing remain the same: superior customer service, quality, innovation. It is our goal to make every experience you have with us special and productive.

Our focus is to continue to improve our product line and customer service to better suit your needs. We are constantly adding more customer service and sales representatives to provide worldwide support. We also have a European office in the Netherlands.

We have become a total solutions provider for all of your ophthalmic needs by supplying quality products such as office medications, supplies, surgical instruments, and diagnostic equipment. We carry thousands of products to meet your needs. If you do not see a particular item, give our representatives a call, and we will find it for you.

Accutome Surgical Instruments and Supplies

Accutome offers a full line of diamond and metal surgical blades along with handheld surgical instruments and surgical disposable products. We are one of the top production and repair facilities of diamond knives. We cross-reference and competitively bid on all major brands of ophthalmic instruments - just send us your list for a quote.

Our reputation for innovation has been developed based on our relationships with top surgeons. Do you have an idea for a new instrument? Give us a call to discuss your idea.

Accutome Repair Center

Our state-of-the-art repair and technical support center is staffed by highly trained technicians. We offer expert repairs on all brands of ophthalmic surgery instruments and ultrasound. We are also experts in diamond knife repair, having one of the largest diamond repair facilities in the U.S. Accutome can customize diamond blades to your specifications and the Diamond Exchange Program allows you to downsize existing blades for a low cost. Most brands and styles can be repaired by us, usually in 24 hours. Our instrument repair unit can sharpen or repair surgical instruments, making them like new.

Accutome Diagnostic Equipment

Accutome offers a broad line of ophthalmic diagnostic equipment. We started in the 1980s by developing the first ophthalmic pachymeter. Today, we feature a full line of diagnostic equipment including: 4Sight, A-Scan Plus Connect, B-Scan Plus, UBM Plus, PachPen handheld pachymeter, AccuPach VI, and AccuPen handheld tonometer.

As an extension of our great customer service, Accutome also offers in-house diagnostic product specialists. Our specialists are available during work hours, Monday through Friday 8am to 8pm EST.

Accutome Office Medications and Supplies

Accutome carries thousands of diagnostic pharmaceuticals and clinical exam supplies. There are no minimum order requirements, and most products ship out on the same day. We run quarterly specials on our most popular products, which can be found on our website at www.accutome.com.

AccuSharp Disposable Ophthalmic Knives

NON-GUARDED DISPOSABLE OPHTHALMIC KNIVES

Item #	Description	Image
AccuSharp Ophthalmic Angled Slit Knife		
Disposable, single-use metal blades, ophthalmic angled slit knives with red handles. Comes with bevel up or double bevel options with a 45 degree angled tip. Packaged individually, sterile. Sold 6 per box.		
AB-ASLI0	1.0mm Angled Slit Knife 1.0mm wide tip, blade is bevel up.	
AB-ASLI2	1.2mm Angled Slit Knife 1.2mm wide tip, blade is bevel up.	
AB-ASLI8	1.8mm Angled Slit Knife 1.8mm wide tip, blade is bevel up.	
AB-ASLI8DB	1.8mm Angled Slit Knife 1.8mm wide tip, blade is double bevel.	
AB-ASL20	2.0mm Angled Slit Knife 2.0mm wide tip, blade is bevel up.	
AB-ASL22	2.2mm Angled Slit Knife 2.2mm wide tip, blade is bevel up.	
AB-ASL22DB	2.2mm Angled Slit Knife 2.2mm wide tip, blade is double bevel.	
AB-ASL23	2.3mm Angled Slit Knife 2.3mm wide tip, blade is bevel up.	
AB-ASL24	2.4mm Angled Slit Knife 2.4mm wide tip, blade is bevel up.	
AB-ASL24DB	2.4mm Angled Slit Knife 2.4mm wide tip, blade is double bevel.	
AB-ASL25	2.5mm Angled Slit Knife 2.5mm wide tip, blade is bevel up.	
AB-ASL25DB	2.5mm Angled Slit Knife 2.5mm wide tip, blade is double bevel.	
AB-ASL26	2.65mm Angled Slit Knife 2.65mm wide tip, blade is bevel up.	
AB-ASL26DB	2.65mm Angled Slit Knife 2.65mm wide tip, blade is double bevel.	
AB-ASL27	2.75mm Angled Slit Knife 2.75mm wide tip, blade is bevel up.	
AB-ASL27DB	2.75mm Angled Slit Knife 2.75mm wide tip, blade is double bevel.	
AB-ASL28	2.8mm Angled Slit Knife 2.8mm wide tip, blade is bevel up.	
AB-ASL28DB	2.8mm Angled Slit Knife 2.8mm wide tip, blade is double bevel.	
AB-ASL285	2.85mm Angled Slit Knife 2.85mm wide tip, blade is bevel up.	

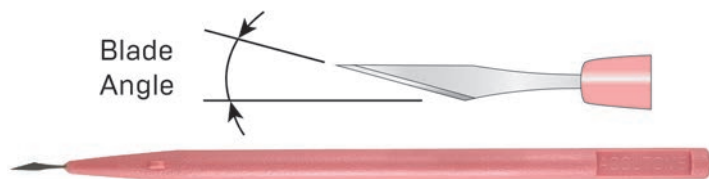

NON-GUARDED DISPOSABLE OPHTHALMIC KNIVES

Item #	Description	Image
AB-ASL30	3.0mm Angled Slit Knife 3.0mm wide tip, blade is bevel up.	
AB-ASL30DB	3.0mm Angled Slit Knife 3.0mm wide tip, blade is double bevel.	
AB-ASL32	3.2mm Angled Slit Knife 3.2mm wide tip, blade is bevel up.	
AB-ASL32DB	3.2mm Angled Slit Knife 3.2mm wide tip, blade is double bevel.	
AB-ASL35	3.5mm Angled Slit Knife 3.5mm wide tip, blade is bevel up.	

AccuSharp Ophthalmic Straight Knife

Disposable, single-use metal blades, ophthalmic straight knives with pink handles. Blades are available in various degrees but all blades are double bevel. Packaged individually, sterile. Sold 6 per box.

AB-AST15	15-Degree Straight Knife 15-degree angled blade.
AB-AST22	22.5-Degree Straight Knife 22.5-degree angled blade.
AB-AST30	30-Degree Straight Knife 30-degree angled blade.
AB-AST45	45-Degree Straight Knife 45-degree angled blade.

AccuSharp Ophthalmic Sideport/MVR Knife

Disposable, single-use metal blades, ophthalmic Sideport/MVR knives with green handles. Blades are available in various sizes and gauges with angled or straight shafts. Packaged individually, sterile. Sold 6 per box.

AB-AVR10	1.0mm Angled Sideport 1.0mm wide sideport blade with angled shaft.
AB-AVR10S	1.0mm Straight Sideport 1.0mm wide sideport blade with straight shaft.
AB-AVR12	1.2mm Angled Sideport 1.2mm wide sideport blade with angled shaft.
AB-AVR19	19 Gauge MVR Lance 19 gauge MVR blade with straight shaft.
AB-AVR19A	19 Gauge MVR Lance 19 gauge MVR blade with angled shaft.
AB-AVR20	20 Gauge MVR Lance 20 gauge MVR blade with straight shaft.
AB-AVR20A	20 Gauge MVR Lance 20 gauge MVR blade with angled shaft.
AB-AVR23A	23 Gauge MVR Lance 23 gauge MVR blade with angled shaft.
AB-AVR25	25 Gauge MVR Lance 25 gauge MVR blade with straight shaft.

Diamond Knives

On the Cutting Edge

Accutome's diamond knives are the perfect blend of design and craftsmanship, in order to make superior corneal incisions. With an in-house repair facility, Accutome is able to provide high-quality repairs and quick repair turnaround times. By owning it's own diamond-cutting facility, Accutome is able to offer a diamond knife exchange program, allowing you to upgrade or change blade designs as your incision needs change.

Features

- Unsurpassed sharpness
- Titanium and aluminum handles
- Lifetime warranty on titanium handles
- More cost effective than metal blades
- Variety of sizes and configurations available to fit your surgical needs

Please contact your Accutome sales representative at (800) 979.2020 or visit us on the web at www.accutome.com for additional information on our complete diamond knife product line.

PHACO INCISION DIAMOND KNIVES

Item #	Description	Image
Simplicity Series		
The Simplicity Series is the perfect blend of design and craftsmanship, helping make superior corneal incisions. The blade features a unique top and bottom bevel design, which creates a self-sealing incision without having to applanate or "dimple down". Various blade sizes available with four sharp sides. Handle is 100% titanium with J-locking mechanism and angled blade holder.		
AK6419	2.2mm Clear Cornea Blade 2.2mm blade width.	
AK6424	2.4mm Clear Cornea Blade 2.4mm blade width.	
AK6415	2.5mm Clear Cornea Blade 2.5mm blade width.	
AK6410	2.65mm Clear Cornea Blade 2.65mm blade width.	
AK6427	2.75mm Clear Cornea Blade 2.75mm blade width.	
AK6411	2.8mm Clear Cornea Blade 2.8mm blade width.	
AK6412	3.0mm Clear Cornea Blade 3.0mm blade width.	
AK6413	3.2mm Clear Cornea Blade 3.2mm blade width.	

Simplicity Trapezoid Series

The Simplicity Trapezoid Series is the perfect blend of design and craftsmanship, helping make superior corneal incisions. It features a blade with a unique top and bottom bevel design, which creates a self-sealing incision without having to applanate or "dimple down". Four sharp sided, trapezoid shaped blades with two different blade widths allowing for a small or large incision. Handle is 100% titanium with J-locking mechanism and angled blade holder.

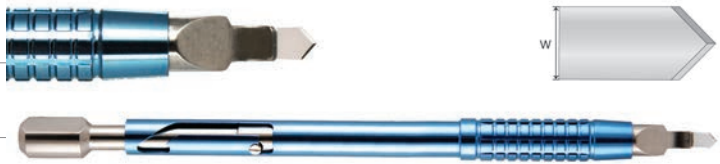

AK6449	2.2mm/2.4mm Trapezoid Blade 2.2mm width at front of blade (width 1) and 2.4mm width blade at back of blade (width 2).

AK6058	2.8mm/3.2mm Trapezoid Blade 2.8mm width at front of blade (width 1) and 3.2mm width blade at back of blade (width 2).	
AK6067	2.8mm/3.5mm Trapezoid Blade 2.8mm width at front of blade (width 1) and 3.5mm width blade at back of blade (width 2).	
AK6054	3.0mm/3.2mm Trapezoid Blade 3.0mm width at front of blade (width 1) and 3.2mm width blade at back of blade (width 2).	

SPECIALTY DIAMOND KNIVES

Item #	Description	Image
Crescent Diamond Knife		
Accutome's Crescent blades are manufactured in-house, making it a high-quality product at an affordable price. Crescent blades have rounded blade tips that are available in various blade widths. Handle is 100% titanium with J-locking mechanism and angled blade holder.		
AK6044	1.0mm Crescent Blade 1.0mm blade width.	
AK6040	1.4mm Crescent Blade 1.4mm blade width.	
AK6041	2.0mm Crescent Blade 2.0mm blade width.	

SPECIALTY DIAMOND KNIVES

Item #	Description	Image
--------	-------------	-------

Sclerostomy Diamond Knife

Designed for implanting the Ex-Press filtration device. Blade measures 0.4mm in width and has two sharp sides. Handle is 100% titanium with J-locking mechanism and straight blade holder.

AK6180	Sclerostomy Lancet
--------	---------------------------

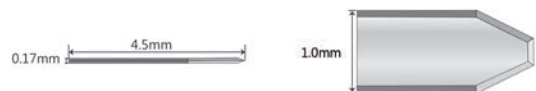

Universal Cataract Diamond Knife

Accutome's Universal Cataract diamond knives are manufactured in-house, making it a high-quality product at an affordable price. The Universal and Surgeon's Choice blades measure 1.0mm in width and have four sharp sides. Handle is 100% titanium with J-locking mechanism and straight blade holder.

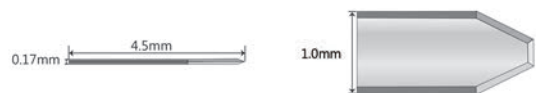

AK6030	1.0mm Universal Blade No footplate, regular handle.
--------	---

AK6230-2	Dual Preset Surgeon's Choice Blade Footplate blade with step handle that has 0.3, 0.6, and full extension increments for increased versatility.
----------	---

AK6230-3	Triple Preset Surgeon's Choice Blade Footplate blade with step handle that has 0.5, 0.55, 0.6, and full extension increments for increased versatility.
----------	---

PARACENTESIS/STAB DIAMOND KNIVES

Item #	Description	Image
--------	-------------	-------

Hawkeye Series

Hawkeye Series knives are the most used knives in all of ophthalmic surgery. The Hawkeye Series provides great value and sharpness for paracentesis incisions. Every Accutome blade is manufactured to the highest quality and specifications inside of our Accutome facility. These lancet blades measure 1.0mm in width and come in various styles with either a straight or angled holder. Handle is aluminum with J-locking mechanism.

AK6130	0.7mm Truncated Lancet 0.7mm truncated lancet blade with straight holder.
--------	---

PARACENTESIS/STAB DIAMOND KNIVES

Item #	Description	Image
AK6I50	0.7mm Hawkeye Trifacet 0.7mm trifacet truncated lancet blade with straight holder.	
AK6I60	1.0mm Truncated Lancet 1.0mm truncated lancet blade with straight holder.	
AK6I60A	1.0mm Angled Truncated Lancet 1.0mm truncated lancet blade with angled holder.	
AK6I75	1.0mm Lancet 1.0mm lancet blade with straight holder.	
AK6I75A	1.0mm Angled Lancet 1.0mm lancet blade with angled holder.	

Hawkeye Premium Series

The Hawkeye Premium Series is manufactured in-house, making it a high-quality product at an affordable price. The blades measure 1.0mm in width and come in various styles. Handle is 100% titanium with J-locking mechanism and straight holders.

AK5015	1.0mm Trifacet Freehand Trifacet blade with two sides sharp.	
AK6026	45-Degree Single-Edge Freehand 45-degree blade with one side sharp.	
AK6016-60	1.0mm Clear Cornea Lancet Blade with four sides sharp.	

ASTIGMATISM MANAGEMENT DIAMOND KNIVES

Item #	Description	Image
Donnenfeld Preset LRI, Long Handle		
Please note that custom preset options are available. These long-handled preset Donnenfeld lancet blades are available in various desired preset specifications. Blades are at a 15-degree angle for better applanation, are 1.0mm in width, and have a winged footplate for superior control. Handle is 100% titanium and measures 4.5 inches long.		
AK6I75PT200	Donnenfeld Preset LRI, 200 Micron Lancet blade with 200 micron depth preset.	
AK6I75PT250	Donnenfeld Preset LRI, 250 Micron Lancet blade with 250 micron depth preset.	
AK6I75PT300	Donnenfeld Preset LRI, 300 Micron Lancet blade with 300 micron depth preset.	
AK6I75PT350	Donnenfeld Preset LRI, 350 Micron Lancet blade with 350 micron depth preset.	
AK6I75PT400	Donnenfeld Preset LRI, 400 Micron Lancet blade with 400 micron depth preset.	
AK6I75PT450	Donnenfeld Preset LRI, 450 Micron Lancet blade with 450 micron depth preset.	
AK6I75PT500	Donnenfeld Preset LRI, 500 Micron Lancet blade with 500 micron depth preset.	
AK6I75PT550	Donnenfeld Preset LRI, 550 Micron Lancet blade with 550 micron depth preset.	
AK6I75PT600	Donnenfeld Preset LRI, 600 Micron Lancet blade with 600 micron depth preset.	

Donnenfeld Preset LRI, Short Handle

Please note that custom preset options are available. These short-handled preset Donnenfeld lancet blades are available in various desired preset specifications. Blades are at a 15-degree angle for better applanation, are 1.0mm in width, and have a winged footplate for superior control. Handle is 100% titanium and measures 2.625 inches long.

AK6I75SPT200	Donnenfeld Preset LRI, 200 Micron Lancet blade with 200 micron depth preset.	
AK6I75SPT250	Donnenfeld Preset LRI, 250 Micron Lancet blade with 250 micron depth preset.	
AK6I75SPT300	Donnenfeld Preset LRI, 300 Micron Lancet blade with 300 micron depth preset.	
AK6I75SPT350	Donnenfeld Preset LRI, 350 Micron Lancet blade with 350 micron depth preset.	
AK6I75SPT400	Donnenfeld Preset LRI, 400 Micron Lancet blade with 400 micron depth preset.	
AK6I75SPT450	Donnenfeld Preset LRI, 450 Micron Lancet blade with 450 micron depth preset.	
AK6I75SPT500	Donnenfeld Preset LRI, 500 Micron Lancet blade with 500 micron depth preset.	
AK6I75SPT550	Donnenfeld Preset LRI, 550 Micron Lancet blade with 550 micron depth preset.	
AK6I75SPT600	Donnenfeld Preset LRI, 600 Micron Lancet blade with 600 micron depth preset.

ASTIGMATISM MANAGEMENT DIAMOND KNIVES

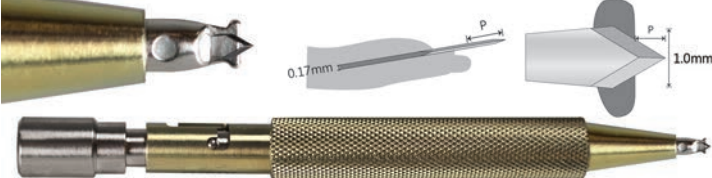

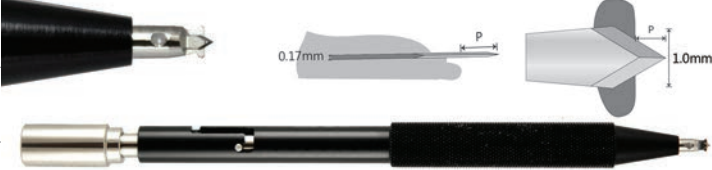

Item #	Description	Image
Chang LRI Diamond Knife		
<p>A 1.0mm wide lancet blade developed specifically for correcting astigmatism using an intraoperative wavefront aberrometer. Customized, 3.5-inch, gold, aluminum, straight handle design to provide better control within shorter working distance. Winged footplate provides superior visualization and reduces epithelium drag. Highest quality preset diamond blade. Fully retractable J-locking mechanism for blade and sharps protection.</p>		
AK6I75PC	Chang LRI Diamond Knife	 <p>The image shows the Chang LRI Diamond Knife, a gold-colored instrument with a textured handle. To the right are technical diagrams of the blade tip: a side view showing a 0.17mm thickness and a top view showing a 1.0mm width. The diagrams include labels 'P' and 'H' indicating specific dimensions.</p>
Rubenstein Preset LRI, Long Handle		
<p>Please note that custom preset options are available. These long-handed Rubenstein Preset LRI lancet diamond knives measure 1.0mm in width and are available in various desired preset specifications. Winged footplate for superior control. Handle is straight aluminum and measures 4.75 inches long.</p>		
AK6I75P200	Rubenstein Preset LRI, 200 Micron	 <p>The image shows the Rubenstein Preset LRI, Long Handle diamond knives, which have a black handle and a gold-colored blade. To the right are technical diagrams of the blade tip, identical to the ones shown for the Chang LRI Diamond Knife, with a 0.17mm thickness and a 1.0mm width. Labels 'P' and 'H' are present in the diagrams.</p>

Item #	Description	Image
AK6175SP600	Rubenstein Preset LRI, 600 Micron Lancet blade with 600 micron depth preset.	

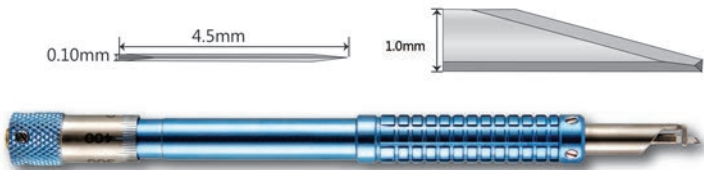

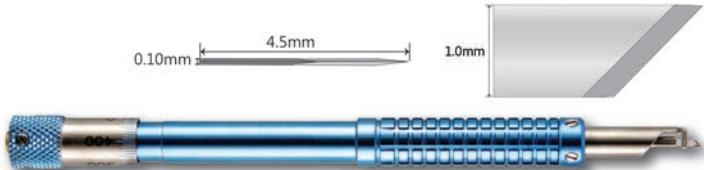

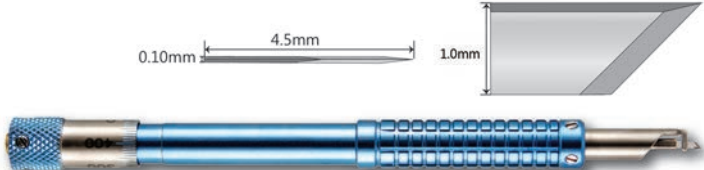

Surgeon's Choice Adjustable

Please note that any diamond knife orders will be processed as separate orders in house. Other pre-set options are available upon request. Blade with various adjustable pre-set handle steps. Blade measures 1.0mm in width and each knife has a wide footplate design. Handle is 100% titanium and has a straight holder.

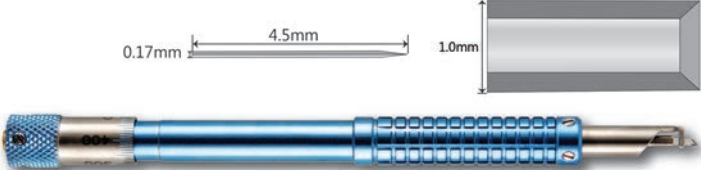

AK6216	1.0mm Clear Cornea Blade Clear cornea blade with adjustable steps - 0.5mm, 0.55mm, 0.6mm, and full extension.	
AK6235-2	1.0mm Double Preset Lancet Blade Lancet blade with two pre-set adjustable steps - 0.3mm and 0.6mm.	
AK6235-3	1.0mm Triple Preset Lancet Blade Lancet blade with three preset adjustable steps - 0.5mm, 0.55mm, and 0.6mm.	

Micrometer

Variety of 1.0mm blade styles mounted in an adjustable micrometer handle. Dual footplate for superior control. 100% titanium handle.

AK5003	15-Degree Micrometer 15-Degree Arcuate Blade mounted in an adjustable micrometer handle.	
AK5002	45-Degree Micrometer Single edge, 45-degree RK Blade mounted in an adjustable micrometer handle.	
AK5005	45-Degree Micrometer Double edge, 45-degree blade mounted in an adjustable micrometer handle.

The handle has a knurled grip and a scale. The blade has a cutting depth of 250 microns. The handle is marked with '400', '7', and 'ACCUHOME USA CE'.</p>

Sapphire Knives

KERATOME SAPPHIRE KNIVES

Item #	Description	Image
Clear Cornea Sapphire Knife		
Variety of sapphire blade widths. Aluminum handle with J-locking mechanism and angled holder.		
AK0018L	1.5mm Clear Cornea Sapphire 1.5mm wide clear cornea blade.	
AK0019L	2.2mm Clear Cornea Sapphire 2.2mm wide clear cornea blade.	
AK0011L	2.8mm Clear Cornea Sapphire 2.8mm wide clear cornea blade.	
AK0012L	3.0mm Clear Cornea Sapphire 3.0mm wide clear cornea blade.	
AK0013L	3.2mm Clear Cornea Sapphire 3.2mm wide clear cornea blade.	
Spear Sapphire Knife		
Variety of sapphire blade widths. Aluminum handle with J-locking mechanism and angled holder.		
AK0001L	2.8mm Lance Sapphire Knife 2.8mm wide spear blade.	
AK0002L	3.0mm Lance Sapphire Knife 3.0mm wide spear blade.	
AK0003L	3.2mm Lance Sapphire Knife 3.2mm wide spear blade.	
Trapezoid Sapphire Knife		
Four sharp-sided, trapezoid-shaped blades with two different blade widths allowing for a small or large incision. Aluminum handle with J-locking mechanism and angled holder.		
AK0038	0.9mm/1.2mm Trapezoid Sapphire 0.9mm width at front of blade (width 1) and 1.2mm width blade at back of blade (width 2).	
AK0025	2.2mm/2.5mm Trapezoid Sapphire 2.2mm width at front of blade (width 1) and 2.5mm width blade at back of blade (width 2).	
AK0061	2.5mm/3.0mm Trapezoid Sapphire 2.5mm width at front of blade (width 1) and 3.0mm width blade at back of blade (width 2).	
AK0060	2.5mm/3.2mm Trapezoid Sapphire 2.5mm width at front of blade (width 1) and 3.2mm width blade at back of blade (width 2).

We Have You Covered

Accutome provides a wide range of repair services including: Phaco Handpiece, Handheld Instrument, and Diamond Knives (all brands and all styles). Accutome can also repair a long list of ultrasound equipment. Our experienced staff provides quality, professional service utilizing technologically advanced in-house repair facilities.

Specific Repair Services Include:

Phaco Handpiece Repair

- Servicing all major brands, with 6- or 12-month warranty, 5-day repair turnaround.
- Refurbished handpieces available in most makes and models.

Diamond Knife Repair

- Any size and any style knife can be repaired, usually within 24 hours. We will refurbish your old handles when your diamond blades are repaired.
- Diamond Exchange Program allows you to upgrade or change blade designs and sizes as your incisional needs change. Accutome will replace the older blade in your diamond knife with a new state-of-the-art Clear Cornea, Simplicity one pass, or Phaco blade for the price of a repair.
- Exact Size Guarantee within 60 days of a diamond knife purchase, Accutome adjusts diamond widths at no extra charge should the surgeon require a larger or smaller incision.

Instrument Repair

- Any handheld surgical instrument can be repaired.
- Forceps – straightening, aligning, and remanufacturing forceps teeth.
- Scissors – sharpening and refurbishing
- Hooks and manipulators
- Needle holders
- Speculums

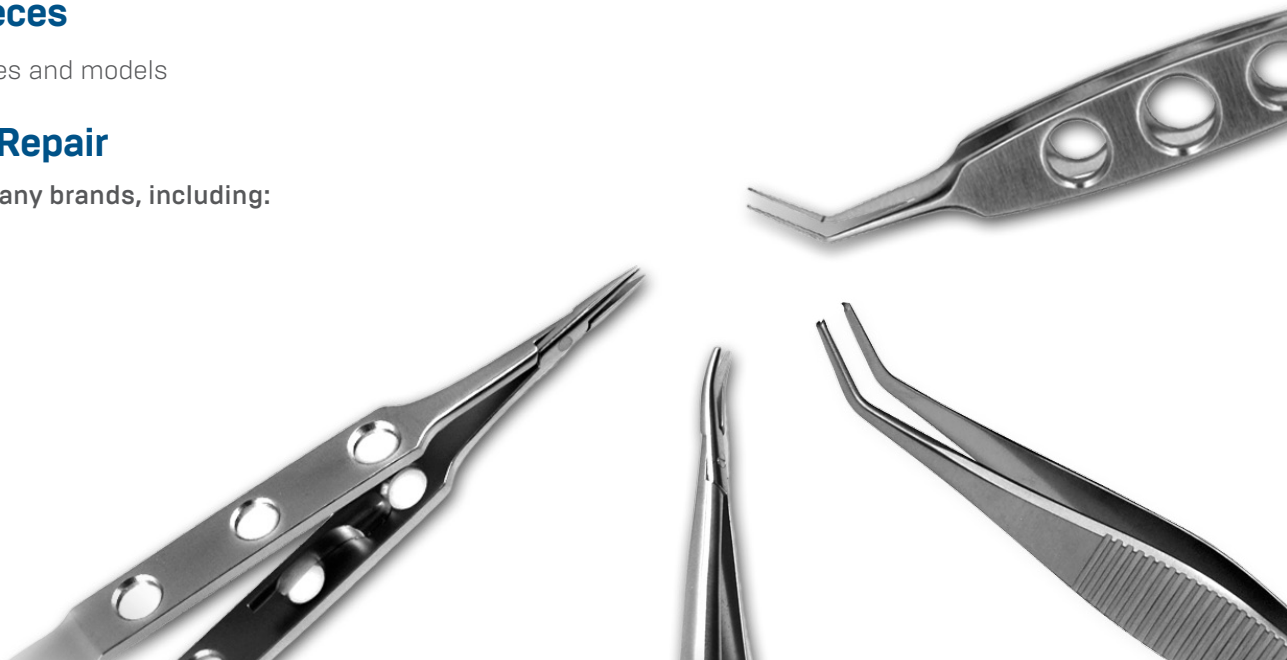

Handpieces

- Most makes and models

Camera Repair

Servicing many brands, including:

- Stryker
- Storz
- Dyonics
- Olympus
- Linvatec

Bipolar Instruments

BIPOLAR CABLES & PROBES

Item #	Description	Image
--------	-------------	-------

Bipolar Cables

Reusable TPR (thermoplastic rubber) bipolar cables 12 inches, straight connection, universal 2 pin fitting. Fits 4mm banana-plug style generators. Good for use with steam sterilization.

AM0830	<p>Straight Bipolar Cable Straight connector.</p>	
--------	--	--

AM0831	<p>Angled Bipolar Cable 45-degree connector.</p>	
--------	---	---

Cautery Probe

Straight tip. Reusable.

AF0160	<p>Cautery Probe 18g 18 gauge probe.</p>	
AF0162	<p>Cautery Probe 20g 20 gauge probe.</p>	

BIPOLAR FORCEPS

Item #	Description	Image
--------	-------------	-------

Adson Bipolar Forceps

Straight shafts, 1.0mm wide tips. Flat handle. Overall length: 127mm.

AF0125	<p>Adson Bipolar Forceps, Straight 1.0mm wide serrated tips. Insulated handle. Overall length: 127mm.</p>	
AF0127	<p>Adson Bipolar Forceps, Straight 1.0mm wide non-stick tips. Overall length: 127mm.</p>	

BIPOLAR FORCEPS

Item #	Description	Image
Coaptation Bipolar Forceps		
Curved shafts, angled 0.6mm wide non-stick tips, wide, flat handle. Non-insulated. Overall length: 114mm.		
AF0100	Coaptation Bipolar Forceps	
Jewelers Bipolar Forceps		
Straight shafts with fine pointed tips. Smooth handle with dull finish. Overall length: 120mm.		
AF0120	Non-insulated Jewelers Bipolar Forceps Non-insulated.	
AF0120 IN	Insulated Jewelers Bipolar Forceps Insulated.	
McPherson Bipolar Forceps		
Straight and angled shafts, 0.4mm wide non-stick tips. Flat handle. Overall length: 95mm.		
AF0130	McPherson Bipolar Forceps, Angled Angled shafts, non-insulated.	
AF0130 I	McPherson Bipolar Forceps, Angled Angled shafts, insulated.	
AF0140	McPherson Bipolar Forceps, Straight Straight shafts, non-insulated.	

BIPOlar FORCEPS

Item #	Description	Image
Shepard Bipolar Forceps		
Angled shafts with 4mm platform. Smooth handle with dull finish. Non-insulated. Overall length: 120mm.		
AF0145 A	Shepard Bipolar Forceps	

Calipers, Gauges & Markers

CALIPERS

Item #	Description	Image
--------	-------------	-------

Braunstein Fixed Caliper

Aphakic: 3.5mm. Phakic: 4mm. Overall length: 80mm.

AR0155	Braunstein Fixed Caliper
--------	--

Castroviejo Caliper

Measures 0mm-20mm in 1.0mm increments. Screw-locking mechanism. Overall length: 89mm.

AR0140	Castroviejo Caliper Curved blades.
--------	---

AR0150	Castroviejo Caliper Straight blades.
--------	---

AR0150T1	Castroviejo Caliper Straight titanium blades.

GAUGES

Item #	Description	Image
--------	-------------	-------

Mendez Degree Gauge

Outside diameter 18mm. Inside diameter 12mm. Markings on top of instrument, 10-degree increments. Round handle. Overall length: 114mm.

AR0121	Stainless Steel Gauge Made from stainless steel.	
--------	---	--

AR0121TI	Titanium Gauge Made from titanium.	
----------	---	--

MARKERS

Item #	Description	Image
--------	-------------	-------

Bores Axis Marker

Designed to fit inside of degree gauge for axis marking. Round handle.

AR0120	Bores Axis Marker	
--------	-----------------------------------	--

MARKERS

Item #	Description	Image
Chayet Marker		
<p>Stainless steel corneal marker that is to be used during LASIK surgery for identifying and realigning the lamellar flap. Marking pattern uses a small, medium, and large circle. Flat handle. Overall length: 106mm.</p>		
AR4120	Chayet Marker	
Dell LRI Astigmatism Marker		
<p>Titanium with axis marking blades. Rotating ring with 10 degree increments. Round, knurled handle. Overall length: 120mm.</p>		
AR0126	<p>Gills Nomogram Marker 6mm and 8mm chord length and axis marking blades.</p>	
AR0127	<p>Nichamin Nomogram Marker 40, 60, 80 degrees and axis marking blades.</p>	
AR0129	<p>Nichamin Nomogram Marker 40, 60, 80 degrees and axis marking blades. Reference marks for proper positioning.</p>	
AR0132	<p>Donnenfeld LRI Marker 1, 2 clock hours (30, 60 degrees) and axis marking blades.</p>	

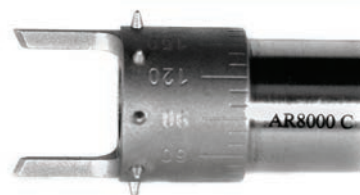

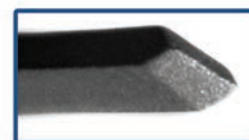

MARKERS

Item #	Description	Image
--------	-------------	-------

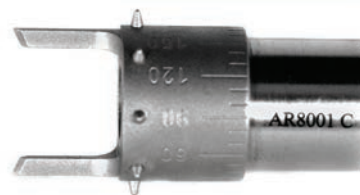

Devgan Axis Marker

The Devgan Axis Markers are designed to improve toric IOL axis and centration accuracy for better outcomes. The marking blades fit most standard goldman tonometer housings. Hollow center allows surgeon to center marks with pupil without the use of gentian violet ink. Markers are 6mm or 9mm on the inside of the blades and 9 to 12mm on the outside. Markers are either smooth and angled or pointed and angled. Marks 0 to 180 degrees in 10-degree increments.

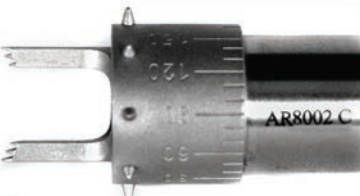

AR8000 **6-9mm Marking Blade**
 Marking blades are 6mm apart on the inside and 9mm apart on the outside. Tips of marker are smooth and angled.

AR8001 **9-12mm Marking Blade**
 Marking blades are 9mm apart on the inside and 12mm apart on the outside. Tips of marker are smooth and angled.

AR8002 **6-9mm Marking Blade**
 Marking blades are 6mm apart on the inside and 9mm apart on the outside. Tips of marker have three points and are angled. This tip will leave three dots on each side and is used for toric IOL marking.

Hoffer Optical Zone Marker

Various marker diameters with cross hairs. Round handle. Overall length: 108mm.

AR0250 4.00 **4mm Optical Zone Marker**
 4.0mm diameter with cross hairs.

AR0250 4.50 **4.5mm Optical Zone Marker**
 4.5mm diameter with cross hairs.

AR0250 5.00 **5.0mm Optical Zone Marker**
 5.0mm diameter with cross hairs.

MARKERS

Item #	Description	Image
AR0250 5.50	5.5mm Optical Zone Marker 5.5mm diameter with cross hairs.

Atkinson Retrobulbar Needle

The Atkinson Retrobulbar Needle has a straight shaft and needle tip. Disposable, sold 10 per box. Overall length: 38mm.

AXI0414	Retrobulbar Needle, 23g 23 gauge.
AXIII637	Retrobulbar Needle, 25g 25 gauge.
AXI4571	Retrobulbar Needle, 27g 27 gauge.

Atkinson Peribulbar Needle

The AccuSurgical disposable Atkinson Peribulbar Needle has a straight shaft and needle tip. Available between 16mm and 32mm total length and 23 to 27 gauge. Sold 10 per box.

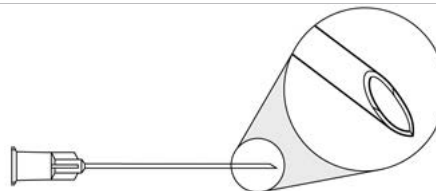

AXI4576	Peribulbar Needle, 23g 23 gauge. Overall length: 16mm.
AXI4577	Peribulbar Needle, 23g 23 gauge. Overall length: 22mm.
AXI0853	Peribulbar Needle, 23g 23 gauge. Overall length: 32mm.
AXI4572	Peribulbar Needle, 25g 25 gauge. Overall length: 16mm.
AXII5027	Peribulbar Needle, 25g 25 gauge. Overall length: 22mm.
AXIII642	Peribulbar Needle, 25g 25 gauge. Overall length: 32mm.
AXI4568	Peribulbar Needle, 27g 27 gauge. Overall length: 22mm.
AXI2045	Peribulbar Needle, 27g 27 gauge. Overall length: 32mm.

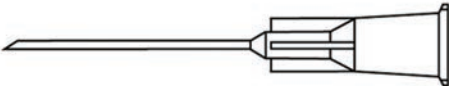

Non Atkinson Retrobulbar Needle

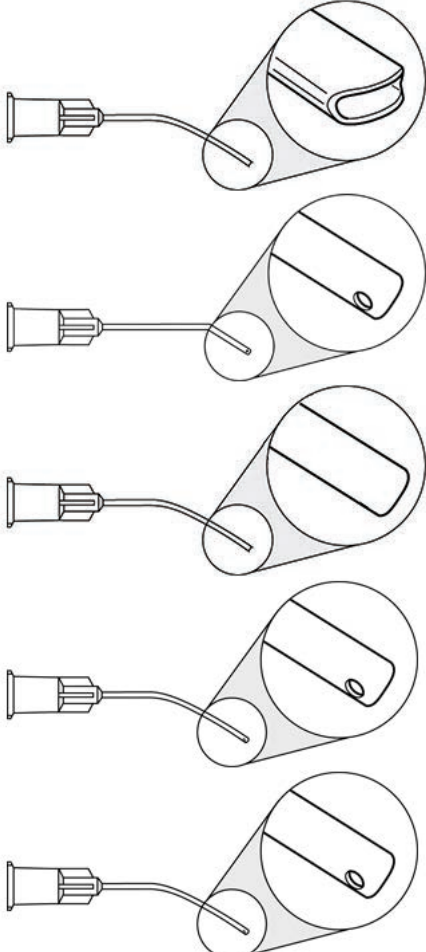

The AccuSurgical disposable Non Atkinson Retrobulbar Needle has a straight shaft and needle tip. Available between 25 to 27 gauge with an overall length of 38mm. Sold 10 per box.

AXI4580	Non Atkinson Retrobulbar Needle, 25g 25 gauge.
AXI4581	Non Atkinson Retrobulbar Needle, 26g 26 gauge.
AXI4582	Non Atkinson Retrobulbar Needle, 27g 27 gauge.

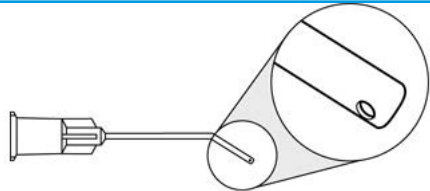

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item # **Description** **Image**

Air Injection Cannula

26 gauge, angled shaft, 10mm from bend to tip, blunt tip. Disposable, sold 10 per box.

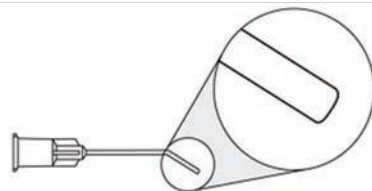

AXI21277 **Air Injection Cannula, 26g**

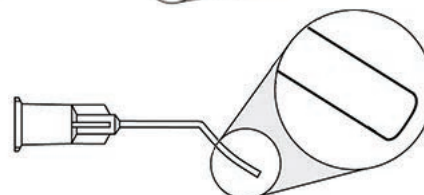

Viscoelastic Cannula

Disposable Viscoelastic Cannulas are 27 gauge with the option of an angled or formed shaft. They are 11mm from bend to tip and have blunt tips. Overall length: 22mm. Sold 10 per box.

AXI21279A **Angled Viscoelastic Cannula**
Angled shaft.

AXI4680 **Formed Viscoelastic Cannula**
Formed shaft.

Thin Wall Anterior Chamber Cannula, Angled

A thin wall cannula allows the advantage of a larger bore through a smaller cannula. The inside diameter is approximately 2 gauge sizes larger, therefore, a 25 gauge thin wall lumen is approximately the same as the inside lumen on a 23 gauge. Thin Wall Anterior Chamber Cannulas are disposable and have angled shafts and blunt tips. Overall length: 22mm. Sold 10 per box.

AXI4691 **Thin Wall Cannula, 23g**
23 gauge thin wall, 3mm from bend to tip.

AXI4692 **Thin Wall Cannula, 23g**
23 gauge thin wall, 4mm from bend to tip.

AXI4693 **Thin Wall Cannula, 23g**
23 gauge thin wall, 5mm from bend to tip.

AXI4694 **Thin Wall Cannula, 23g**
23 gauge thin wall, 6mm from bend to tip.

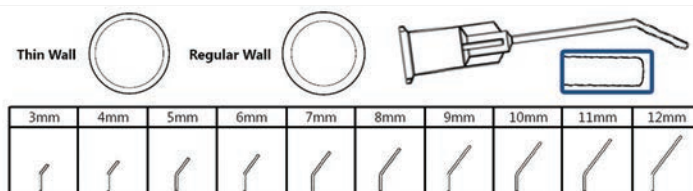

AXI4695 **Thin Wall Cannula, 23g**
23 gauge thin wall, 7mm from bend to tip.

AXI4696 **Thin Wall Cannula, 23g**
23 gauge thin wall, 8mm from bend to tip.

AXI4697 **Thin Wall Cannula, 23g**
23 gauge thin wall, 9mm from bend to tip.

AXI4698 **Thin Wall Cannula, 23g**
23 gauge thin wall, 10mm from bend to tip.

AXI4699 **Thin Wall Cannula, 23g**
23 gauge thin wall, 11mm from bend to tip.

AXI4690	Thin Wall Cannula, 25g 25 gauge thin wall, 12mm from bend to tip.	

Thin Wall Anterior Chamber Cannula, Curved

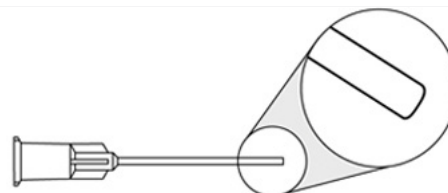

A thin wall cannula allows the advantage of a larger bore through a smaller cannula. The inside diameter is approximately 2 gauge sizes larger, therefore, a 25 gauge thin wall lumen is approximately the same as the inside lumen on a 23 gauge. Thin Wall Anterior Chamber Cannulas are disposable and have curved shafts and blunt tips. Overall length: 22mm. Sold 10 per box.

AXI4704	Anterior Chamber Cannula, 23g 23 gauge thin wall.
AXI4702	Anterior Chamber Cannula, 25g 25 gauge thin wall.

**Thin Wall Anterior Chamber Cannula, Straight**

A thin wall cannula allows the advantage of a larger bore through a smaller cannula. The inside diameter is approximately 2 gauge sizes larger, therefore, a 25 gauge thin wall lumen is approximately the same as the inside lumen on a 23 gauge. Thin Wall Anterior Chamber Cannulas are disposable and have straight shafts and blunt tips. Overall length: 22mm. Sold 10 per box.

AXI4703	Anterior Chamber Cannula, 23g 23 gauge thin wall.
AXI4701	Anterior Chamber Cannula, 25g 25 gauge thin wall.

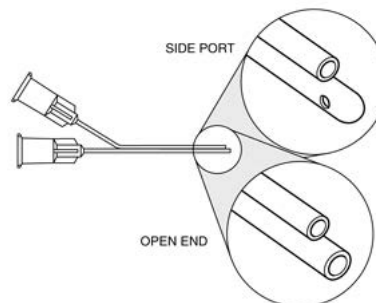

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
--------	-------------	-------

Double I/A Cannula

Double Irrigating and Aspirating Cannulas are part of our disposable line. Each cannula has a straight shaft and are available in various gauges and tip types. Sold 10 per box.

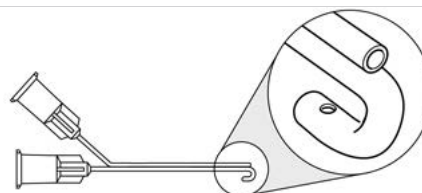

AXI4705	Double I/A Cannula Sideport 21 gauge, one rounded closed 0.3mm sideport tip, one open tip.
AXI4707	Double I/A Cannula Open End 21 gauge, both tips are open ended.
AXI4708	Double I/A Cannula Open End 21 gauge, 19 gauge, both tips are open ended.

J-Shaped Double I/A Cannula

23 gauge and 25 gauge, straight shaft, open ended top tip, J-shaped bottom tip with 0.2mm sideport. Disposable, sold 10 per box.

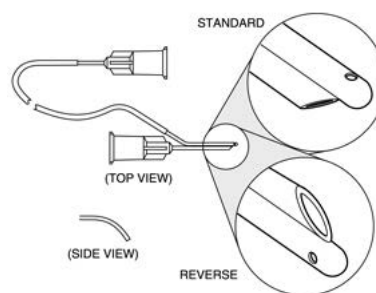

AXI4706	J-Shaped Double I/A Cannula
---------	------------------------------------

Double Barrel I/A Cannula [Simcoe]

Disposable Double Barrel Irrigating and Aspirating Cannulas are 23 gauge with curved shafts. They have rounded closed tips with 0.3mm sideport on the top or bottom and an open-ended slanted tip. Each cannula comes with 6" silicone tubing and measures 16mm in overall length. Sold 10 per box.

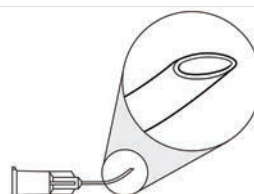

AXI4710	Double Barrel I/A Cannula, Reverse Sideport on bottom, open-ended slanted tip on top.
AXI61571	Double Barrel I/A Cannula, Standard Sideport on top, open-ended slanted tip on bottom.

Cortex Extractor [Charleux]

23 gauge, curved shaft, open pointed tip. Overall length: 13mm. Disposable, sold 10 per box.

AXI4713	Cortex Extractor, 23g
---------	------------------------------

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

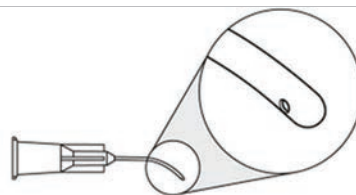

Item #	Description	Image
--------	-------------	-------

Cortex Extractor [Simcoe]

Disposable Simcoe Cortex Extractor Cannulas are 23 gauge with curved shafts and rounded closed tips with 0.3mm sideport. Various lengths are available. Sold 10 per box.

AXI4711 **Cortex Extractor, 23g**
Overall length: 13mm.

AXI55075 **Cortex Extractor, 23g**
Overall length: 22mm.

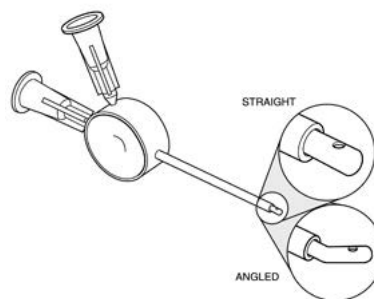

Button Coaxial I/A System

Disposable Button Coaxial Irrigating and Aspirating Systems have a 17 gauge thin wall outer cannula and a 21 gauge inner cannula. Straight shafts with closed, rounded tip and 0.3mm sideport. Overall length: 30mm. Sold 10 per box.

AXI4714 **Button Coaxial I/A System, Angled**
30-degree angled tip.

AXI4715 **Button Coaxial I/A System, Straight**
Straight tip.

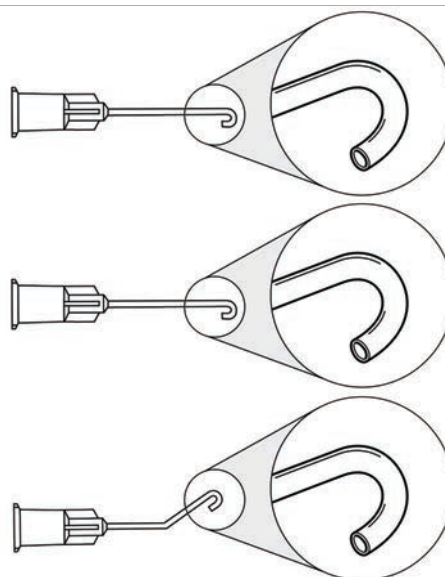

J-Shaped Cannula

Disposable J-shaped tip cannulas with both straight and angled shafts. Available in sizes from 21 gauge to 30 gauge and various sized tips. Overall length: 22mm. Sold 10 per box, unless specified otherwise.

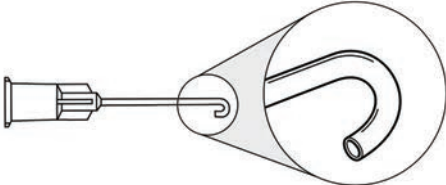

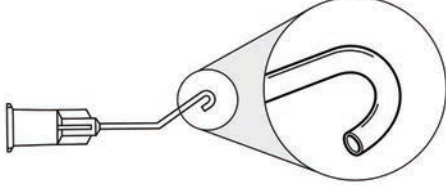

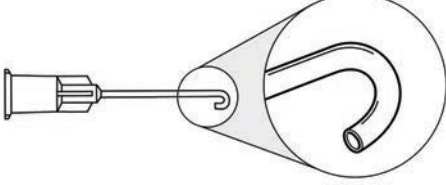

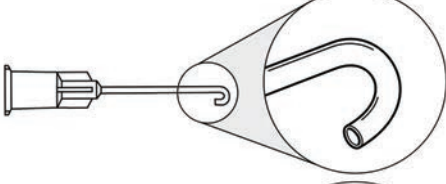

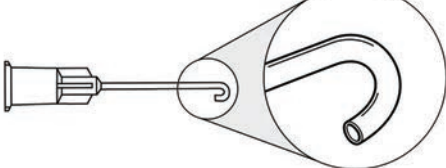

AXI4725 **J-Shaped Cannula, 21g**
21 gauge, straight shaft, 2mm high x 2mm wide tip.

AXI4723 **J-Shaped Cannula, 23g**
23 gauge, straight shaft, 2mm high x 2mm wide tip.

AXI4724 **J-Shaped Cannula, 23g**
23 gauge, 45 degree angled shaft, 10mm from bend to tip, 2mm high x 2mm wide tip.

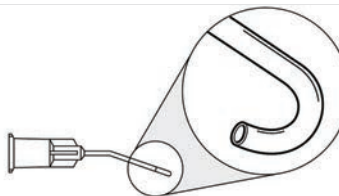

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
AXI0761	J-Shaped Cannula, 25g 25 gauge, straight shaft, 1.5mm high x 1.5mm wide tip.	
AXI4719	J-Shaped Cannula, 25g 25 gauge, 45 degree angled shaft, 10mm from bend to tip, 2mm high x 2mm wide tip.	
AXI51297	J-Shaped Cannula, 27g 27 gauge, straight shaft, 1.5mm high x 1.5mm wide tip.	
AXI51297-BULK	J-Shaped Cannula, 27g 27 gauge, straight shaft, 1.5mm high x 1.5mm wide tip. Sold 100 per bag.	
AXI51287	J-Shaped Cannula, 30g 30 gauge, straight shaft, 1.5mm high x 1.5mm wide tip.	

J-Shaped Cannula [Binkhorst]

The J-Shaped Binkhorst Cannula is available for left or right hand usage. Both choices are 25 gauge with 18 degree angled shaft, 12mm from bend to tip. A J-shaped tip that measures 1.5mm high x 1.75mm wide. Overall length: 22mm. Sold 10 per box.

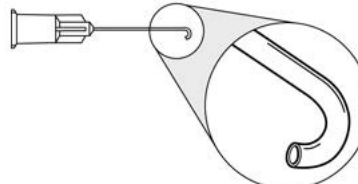

AXI4720	J-Shaped Cannula, 25g, Left Angled left shaft.
AXI4721	J-shaped Cannula, 25g, Right Angled right shaft.

Micro J-Shaped Cannula [Hessburg]

25 gauge, straight shaft, J-shaped tip, 0.85mm long x 1.7mm wide. Overall length: 22mm. Disposable, sold 10 per box.

AXI4722	Micro J-Shaped Cannula

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
Irrigating Cystotome		
Disposable Irrigating Cystotomes and Capsulorhexis Cystotomes with various shaft and tip styles. Each cystotome has a bent, pointed tip and is available in 23 to 30 gauge in size. Ranges in gauge and shaft styles. Overall length ranges from 16mm to 22mm. Sold 10 per box, unless specified otherwise.		
AXI31599	Irrigating Cystotome, 23g 23 gauge, formed shaft. Overall length: 16mm.	
AXI4731	Irrigating Cystotome, 23g 23 gauge, straight shaft. Overall length: 16mm.	
AXI4732	Irrigating Cystotome, 23g 23 gauge, straight shaft. Overall length: 19mm.	
AXI4739	Irrigating Cystotome, 23g 23 gauge, formed shaft. Overall length: 19mm.	
AXI4752	Capsulorhexis Cystotome, 23g 23 gauge, formed shaft with pointed tips that are twisted 90 degrees. Overall length: 16mm.	
AXI4753	Capsulorhexis Cystotome, 23g 23 gauge, straight shaft with pointed tips that are twisted 90 degrees. Overall length: 16mm.	
AXII348	Irrigating Cystotome, 25g 25 gauge, formed shaft. Overall length: 16mm.	
AXII891	Irrigating Cystotome, 25g 25 gauge, formed shaft, reverse formed, tip angled 90 degrees toward bevel. Overall length: 16mm.

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
AXI4730	Irrigating Cystotome, 25g 25 gauge, straight shaft. Overall length: 22mm.	 A technical drawing of a straight shaft cystotome. It shows a cylindrical handle with a textured grip, a long straight shaft, and a circular cross-section of the tip. The tip features a central lumen and a curved, hook-like blade.
AXI35113	Capsulorhexis Cystotome, 25g 25 gauge, formed shaft with pointed tips that are twisted 90 degrees. Overall length: 16mm.	 A technical drawing of a cystotome with a curved shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.
AXI4751	Capsulorhexis Cystotome, 25g 25 gauge, straight shaft with pointed tips that are twisted 90 degrees. Overall length: 16mm.	 A technical drawing of a cystotome with a curved shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.
AXI4742	Irrigating Cystotome [Joyce], 27g 27 gauge, curved shaft. Overall length: 16mm.	 A technical drawing of a cystotome with a curved shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.
AXI31618	Irrigating Cystotome, 27g 27 gauge, formed shaft. Overall length: 16mm.	 A technical drawing of a cystotome with a curved shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.
AXI35093	Irrigating Cystotome, 27g 27 gauge, angled shaft. Overall length: 16mm.	 A technical drawing of a cystotome with an angled shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.
AXI4727	Irrigating Cystotome, 27g 27 gauge, straight shaft. Overall length: 16mm.	 A technical drawing of a straight shaft cystotome. It shows a cylindrical handle with a textured grip, a long straight shaft, and a circular cross-section of the tip. The tip features a central lumen and a curved, hook-like blade.
AXI4745	Irrigating Cystotome, 27g 27 gauge, formed shaft, small radius tip. Overall length: 16mm.	 A technical drawing of a cystotome with a curved shaft. The shaft is formed and has a 90-degree twist at the tip. The tip is circular with a central lumen and a curved blade.

Silicone Tip Capsule Polisher

Disposable Silicone Tip Capsule Polisher cannula with 32-degree angled shafts. Cannulas come with various lengths of squeegee, silicone tubing. Overall length: 22mm. Sold 10 per box.

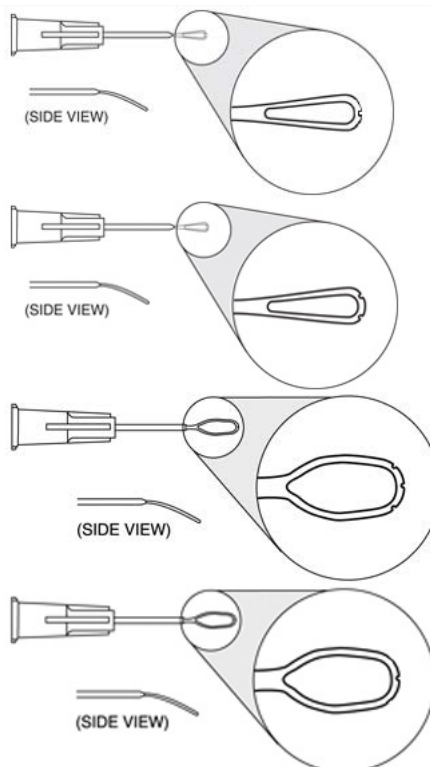

AXI75041	Capsule Polisher, 23g 23 gauge, 7mm from bend to tip, 10mm silicone tubing.
AXI4763	Capsule Polisher, 23g 23 gauge, 9mm from bend to tip, 12mm silicone tubing.
AXI75005	Capsule Polisher, 27g 27 gauge, 7mm from bend to tip, 10mm silicone tubing.

Irrigating Vectis

24 gauge Irrigating Vectis cannula is part of the AccuSurgical Single Use line. Each cannula has a straight shaft with a curved looped tip and one to three ports. Tips are available in 3mm to 5mm widths. Sold 10 per box.

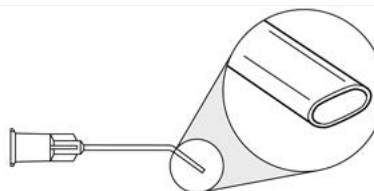

AXI4765	Irrigating Vectis, 3mm Curved 3mm loop tip, one 0.3mm port.
AXI4766	Irrigating Vectis, 4mm Curved 4mm loop tip, two 0.3mm ports.
AXI4767	Irrigating Vectis, 5mm Curved 5mm loop tip, three 0.3mm ports.
AXI4764	Irrigating Vectis, 5mm Curved 5mm loop tip, one 0.3mm port.

Bishop-Harmon Washout Cannula

Disposable 19 gauge Bishop-Harmon Washout Cannulas with 37-degree angled shafts and smooth oval shaped tips. Overall length: 25mm. Sold 10 per box unless specified otherwise.

AXI65041	Washout Cannula, 19g 19 gauge, 37-degree angled shaft, 5mm from bend to tip.
AXI65040	Washout Cannula, 19g 19 gauge, 37-degree angled shaft, 8mm from bend to tip.
AXI65040-BULK	Washout Cannula, 19g 19 gauge, 37-degree angled shaft, 8mm from bend to tip. Sold 100 per bag.

Nucleus Hydrodissector

27 gauge, curved shaft, tip flattened horizontally 4mm from end. Overall length: 22mm. Disposable, sold 10 per box.

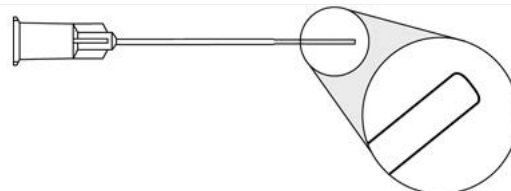

AXI25155 **Nucleus Hydrodissector, 27g**

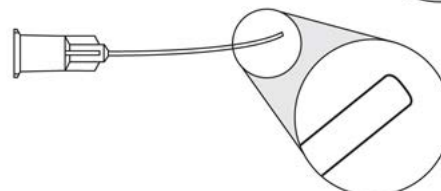

Lacrimal Cannula

Disposable Lacrimal Cannulas are available with either straight or curved shafts. Sizes range from 19 gauge to 26 gauge. Sold 10 per box.

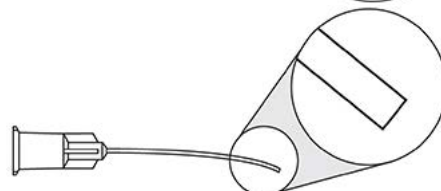

AXI4786 **Lacrimal Cannula Straight, 19g**
 19 gauge tapered to 23 gauge, straight shaft, tapered 12mm from tip. Overall length: 38mm.

AXI4785 **Lacrimal Cannula Curved, 25g**
 25 gauge, slightly curved shaft, tumble polished edge. Overall length: 28mm.

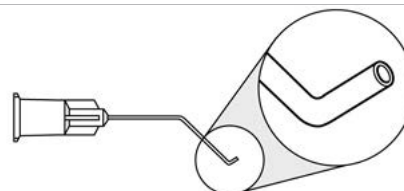

AXI0649 **Lacrimal Cannula Curved, 26g**
 26 gauge, curved shaft, open tip. Overall length: 28mm.

Irrigating Dialer

30 gauge, 45-degree angled shaft, 10mm from bend to tip, 1mm distal end angled 65 degrees. Overall length: 22mm. Disposable, sold 10 per box.

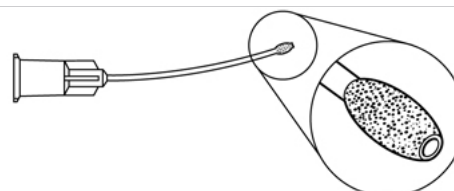

AXI4802 **Irrigating Dialer**

Alpha-Chymotrypsin Cannula

25 gauge, curved shaft, 1mm smooth, bulbous tip. Overall length: 28mm. Disposable, sold 10 per box.

AXI4808 **Alpha-Chymotrypsin Cannula**

Olive Tip Capsule Polisher

Disposable Olive Tip Cannulas range from 23 gauge to 25 gauge in size and are available with angled or curved shafts. Each cannula has a 1mm sandblasted or smooth bulbous tip. Sold 10 per box.

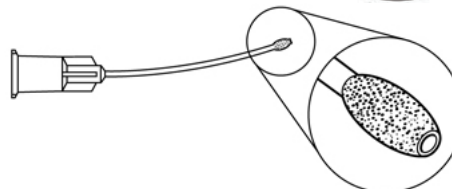

AXI4810 **Olive Tip Capsule Polisher, 23g**
23 gauge, curved shaft. Smooth tip. Overall length: 22mm.

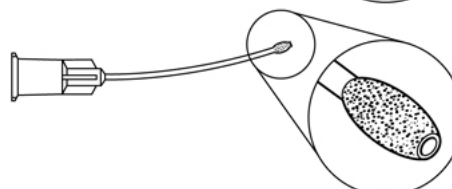

AXI4812 **Olive Tip Capsule Polisher, 23g**
23 gauge, angled shaft, 10mm from bend to tip. Sandblasted tip. Overall length: 22mm.

AXI4811 **Olive Tip Capsule Polisher, 23g**
23 gauge, curved shaft. Sandblasted tip. Overall length: 22mm.

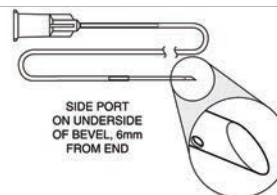

AXI4809 **Olive Tip Capsule Polisher, 25g**
25 gauge, curved shaft. Sandblasted tip. Overall length: 28mm.

Chamber Maintainer

Disposable Chamber Maintainer cannulas range from 20 gauge to 27 gauge in size. Each cannula has a straight shaft with a sharp, closed end tip with a 0.2mm or 0.3mm sideport. Comes with 6" silicone tubing and has an overall length of 22mm. Sold 10 per box.

AXI4820 **Chamber Maintainer, 20g**
20 gauge, 0.3mm sideport, 6" silicone tubing: ID - 0.75mm (0.030"), OD - 1.65mm (0.065").

AXI4819 **Chamber Maintainer, 23g**
23 gauge, 0.3mm sideport, 6" silicone tubing: ID - 0.5mm (0.020"), OD - 0.95mm (0.037").

AXI4818 **Chamber Maintainer, 25g**
25 gauge, 0.2mm sideport, 6" silicone tubing: ID - 0.3mm (0.012"), OD - 0.6mm (0.025").

AXI4817 **Chamber Maintainer, 27g**
27 gauge, 0.2mm sideport, 6" silicone tubing: ID - 0.3mm (0.012"), OD - 0.6mm (0.025").

AXI4847	Angled Vitreoretinal Cannula Angled tapered tip.
---------	--

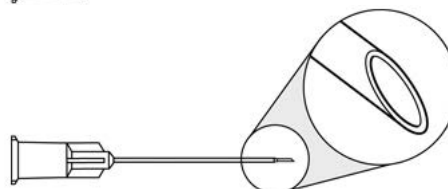

Subretinal Injector [Glaser]

Disposable Glaser Subretinal Injector cannulas come in 20 gauge with a curved or straight shaft. Has a tapered to 33 gauge tip and 3mm distal end. Overall length: 25mm. Sold 10 per box.

AXI4848	Curved Subretinal Injector Curved shaft.
---------	--

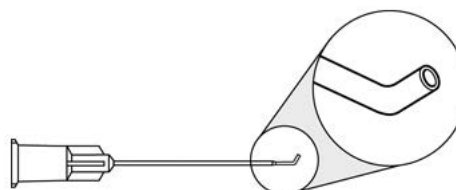

AXI4849	Straight Subretinal Injector Straight shaft.
---------	--

MVR Cannula [Glaser]

20 gauge, angled shaft, 1mm from bend to tip, tapered tip 33 gauge x 4mm, distal end. Overall length: 25mm. Disposable, sold 10 per box.

AXI4850	MVR Cannula, 20g
---------	-------------------------

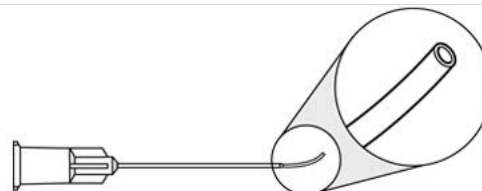

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
--------	-------------	-------

Subretinal Cannula [Lambert]

20 gauge, straight shaft, curved distal end, tapered to 33 gauge x 7mm. Overall length: 25mm. Disposable, sold 10 per box.

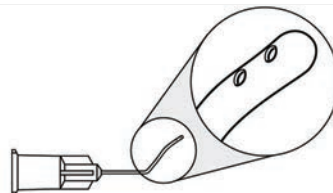

AXI4851 [Subretinal Cannula](#)

LASIK Cannula [Dishler]

27 gauge, formed shaft, 9mm from bend to tip, rounded closed tip with 4 sideports. Overall length: 16mm. Disposable, sold 10 per box.

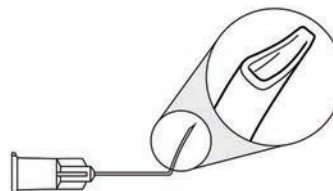

AXI4852 [LASIK Cannula, 27g](#)

LASIK Cannula [Slade]

26 gauge, formed shaft, 9mm from bend to tip, slanted tip. Overall length: 22mm. Disposable, sold 10 per box.

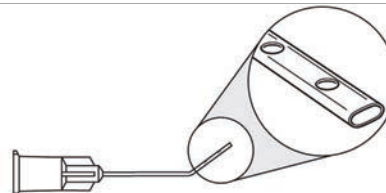

AXI4853 [LASIK Cannula, 26g](#)

LASIK Cannula [Linn]

25 gauge, angled shafts, 9mm from bend to tip, flat bend, 2 ports, open end. Disposable, sold 10 per box.

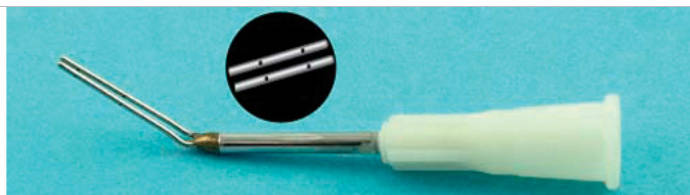

AXI4855 [LASIK Cannula, 25g](#)

Refractive Cannula

25 gauge, angled shaft, dual shafts, 8 ports, closed tip. Disposable, sold 10 per box.

AX205256 [Refractive Cannula, 25g](#)

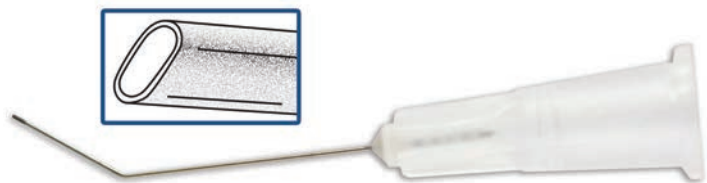

ACCUSURGICAL SINGLE-USE CANNULAS & CYSTOTOMES

Item #	Description	Image
--------	-------------	-------

Femtosecond Cannula [Solomon]

30 gauge hydrodissector, angled shaft, 7mm from bend to tip, sandblasted, oval-shaped tip. Disposable, sold 10 per box.

AXI5227 **Femtosecond Cannula**

Brody Femtosecond Dissecting Cannula

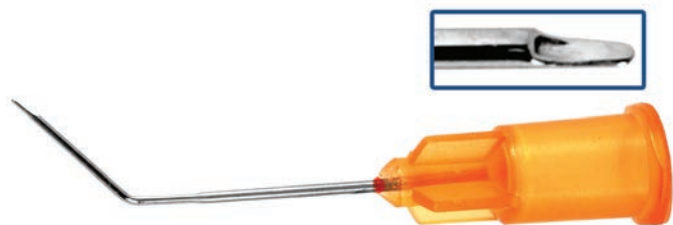

The Brody Femtosecond Dissecting Cannula for laser-assisted cataract surgery is a disposable 25 gauge stainless steel cannula that both easily opens laser incisions and allows for fast, efficient injection of intraocular lidocaine and/or viscoelastic. This elegant device is placed either on a TB syringe filled with lidocaine or directly on the viscoelastic syringe (for those not using intraocular anesthetic). The shovel-like tip allows for easy and safe opening of both the sideport and the main incision. Single-use design removes the need for sterilization. Combination of spatula and cannula reduces the number of instrument hand-offs between scrub tech and surgeon, saving time and improving efficiency. Unique tip design with 25 gauge width reduces wound stretching when compared to other laser incision instrumentation.

AX20001 **Femtosecond Dissecting Cannula**

Sold 10 per box.

AX20001-BULK **Femtosecond Dissecting Cannula**

Sold 100 per bag.

AccuDrop Cannula

AccuDrop is Accutome's dropleless therapy cannula. It was designed by Accutome for administration of dropleless cataract drug formulation. The AccuDrop Cannula is a blunt tip cannula that is designed to reduce zonular trauma. Sideport opening allows for gentle drug dispersion. Angled 90 degree shaft facilitates easier insertion into the anterior chamber to make a targeted drug delivery. Disposable, sold 10 per box.

AXI5581 **AccuDrop Cannula, 25g**

25 gauge.

AXI5630 **AccuDrop Cannula, 27g**

27 gauge.

REUSABLE CANNULAS & CYSTOTOMES

Item #	Description	Image
Atkinson Retrobulbar Needle		
Reusable Atkinson Retrobulbar Needles are available from 19 gauge to 27 gauge in size with straight shafts and sharp, beveled tips. Overall length: 35mm.		
AC0190 19	Atkinson Retrobulbar Needle, 19g 19 gauge.	
AC0190 20	Atkinson Retrobulbar Needle, 20g 20 gauge.	
AC0190 23	Atkinson Retrobulbar Needle, 23g 23 gauge.	
AC0190 25	Atkinson Retrobulbar Needle, 25g 25 gauge.	
AC0190 27	Atkinson Retrobulbar Needle, 27g 27 gauge.	

Air Injection Cannula

Reusable Air Injection Cannulas are available from 23 gauge to 30 gauge in size and have either an angled or straight shaft. Various tip types are available. Overall length: 19mm.

AC0125	Air Injection Cannula, 23g 23 gauge, angled shaft, 45-degree angle, 7mm from bend to tip, blunt tip.	
AC0145	Air Injection Cannula, 25g 25 gauge, angled shaft, 45-degree angle, 5mm from bend to tip, blunt tip.	
AC0110	Air Injection Cannula, 27g 27 gauge, angled shaft, 45-degree angle, 5mm bend to tip.	
AC0122	Air Injection Cannula, 27g 27 gauge, straight shaft.	
AC0105	Air Injection Cannula, 27g 27 gauge, angled shaft, 45-degree angle, 5mm from bend to tip, oval tip.	  

REUSABLE CANNULAS & CYSTOTOMES

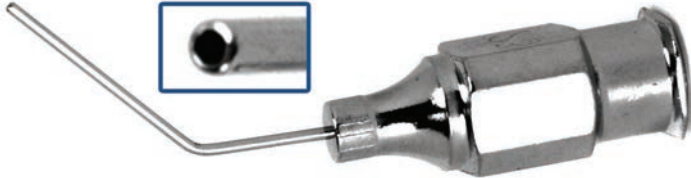

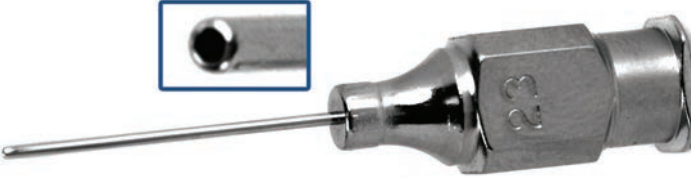

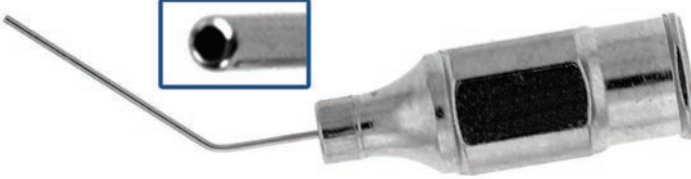

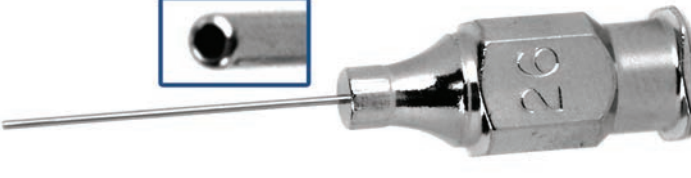

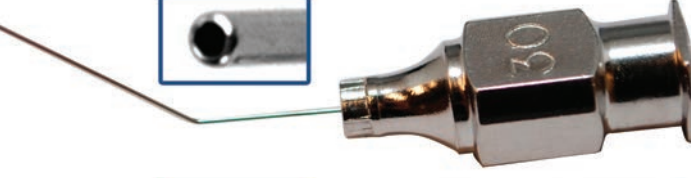

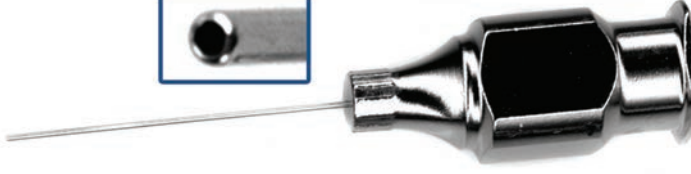

Item #	Description	Image
--------	-------------	-------

McIntyre-Binkhorst Irrigating Cannula

Reusable 26 gauge McIntyre-Binkhorst Irrigating Cannulas with angled or straight shafts. Tip is a 2.6mm wide J-shaped tip with a blunt front opening. Overall length: 18mm.

AC0800 **McIntyre-Binkhorst Irrigating Cannula, Right**
26 gauge, angled right shaft, 13mm from bend to tip.

AC0810 **McIntyre-Binkhorst Irrigating Cannula, Straight**
26 gauge, straight shaft.

AC0820 **McIntyre-Binkhorst Irrigating Cannula, Left**
26 gauge, angled left shaft, 13mm from bend to tip.

Bishop-Harmon Irrigating Cannula

Reusable Bishop-Harmon Irrigating Cannulas are available from 18 gauge to 27 gauge in size and have angled or straight shafts. Tips are flattened and blunt. Overall length: 24mm.

AC0230 18 **Bishop-Harmon Irrigating Cannula, 18g**
18 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.

AC0230 19 **Bishop-Harmon Irrigating Cannula, 19g**
19 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.

AC0231 19 **Bishop-Harmon Irrigating Cannula, 19g**
19 gauge, straight shaft.

AC0230 21 **Bishop-Harmon Irrigating Cannula, 21g**
21 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.

REUSABLE CANNULAS & CYSTOTOMES

Item #	Description	Image
AC0230 23	Bishop-Harmon Irrigating Cannula, 23g 23 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.	
AC0230 25	Bishop-Harmon Irrigating Cannula, 25g 25 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.	
AC0230 26	Bishop-Harmon Irrigating Cannula, 26g 26 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.	
AC0230 27	Bishop-Harmon Irrigating Cannula, 27g 27 gauge, angled shaft, 35-degree angle, 7mm from bend to tip.	
AC0231 27	Bishop-Harmon Irrigating Cannula, 27g 27 gauge, straight shaft.	

Bishop-Harmon Irrigating Cannula Bulb

Bishop-Harmon Irrigating Cannula Bulb measures 25mm in diameter, translucent silicone. Overall length: 63mm.

AC0220 **Bishop-Harmon Irrigating Cannula Bulb**

Adapter for Irrigators

Bishop-Harmon Adapter. Adapts to cannula hubs. Plastic, blue material. Overall length: 22mm.

AC0230 A **Bishop-Harmon Adapter**

REUSABLE CANNULAS & CYSTOTOMES

Item #	Description	Image
--------	-------------	-------

Bishop-Harmon Irrigating Cannula Set

Reusable Bishop-Harmon Irrigating Cannula Sets are available from 19 gauge to 25 gauge in size and have angled shafts. Each set includes 1 cannula, 1 adapter for irrigators (AC0230A), and 1 silicone bulb (AC0220).

AC0230 19 CS	Bishop-Harmon Cannula Set, 19g

Simcoe Cortex Extractor Cannula

Reusable 23 and 25 gauge Simcoe Cortex Extractor Cannulas with 13mm and 21mm curved shafts. Cannulas have closed rounded tips with a 0.3mm aspiration port that faces into the shaft. Overall length: 21mm.

ACI030 21	Simcoe Cannula, 23g 23 gauge, 21mm curved shaft.
ACI030 13	Simcoe Cannula, 23g 23 gauge, 13mm curved shaft.
ACI030 25	Simcoe Cannula, 25g 25 gauge, 21mm curved shaft.

Infusion Cannula

Infusion cannulas ranging from 20 gauge to 23 gauge, come with tubing and luer-adapter.

AC0665	Infusion Cannula, 20g 20 gauge, 6mm beveled tip luer-adapter, comes with 26cm tubing.
AC0666	Infusion Cannula, 20g 20 gauge, 4mm beveled tip luer-adapter, comes with 26cm tubing.
AC0675	Infusion Cannula, 22g 22 gauge, angled luer-adapter, 7mm from bend to tip, self-retaining beveled tip, comes with silicone tubing and luer-adapter.
AC2262	Infusion Cannula, 23g 23 gauge, 5mm beveled tip luer-adapter, comes with 26cm tubing.
AC2263	Infusion Cannula, 23g 23 gauge, 6mm beveled tip luer-adapter, comes with 26cm tubing.

Anis Cortex Aspirating Cannula

23 gauge, angled shaft, 35-degree angle, thin wall, 1.5mm from bend to tip, 0.4mm sideport opening, sandblasted tip. Reusable. Overall length: 26mm.

AC0160	Anis Cortex Aspirating Cannula
--------	---------------------------------------

Graether Collar Button Cannula

23 gauge Graether Collar Button Cannulas with straight or curved shafts. Collar button tip with roughened posterior surface.

AC0390	Collar Button Cannula, Straight Straight shaft. Overall length: 25mm.

Lens Manipulators & Choppers

LENS MANIPULATORS

Item #	Description	Image
--------	-------------	-------

Anis Ball Tip Nucleus Manipulator

Angled shaft, 10mm from bend to tip, ball tip, 0.5mm diameter tip. Round handle. Overall length: 115mm.

AH4450	Anis Ball Tip Nucleus Manipulator	
--------	---	--

Barrett Duo Nucleus Rotator/Manipulator/Splitter

Titanium, double-ended, angled shafts, 14mm from bend to tip, straight sharp inner/outer sides of splitter tip, cutting edge 90 degrees to axis, 10mm from bend to tip, 0.65mm mushroom tip manipulator. Round handle. Overall length: 121mm.

AH4282	Round Handle Nucleus Rotator	
--------	--	--

Bechert Lens Pusher

Angled shaft, 7mm from bend to tip, Y-shaped tip, vertical rotator tip. Round handle. Overall length: 124mm.

AH1580	Bechert Lens Pusher	
--------	-------------------------------------	--

Bechert Nucleus Rotator

Angled shaft, 7mm from bend to tip, Y-shaped tip. Round handle. Overall length: 120mm.

AH4100	Stainless Steel Rotator	
	Stainless steel handle.	

AH4100T	Titanium Rotator	
	Titanium handle.	

Clayman Nucleus Rotator

Angled shaft, 10mm from bend to tip, V-notched tip, 0.5mm wide flat spatula. Flat handle. Overall length: 121mm.

AH4110	Clayman Nucleus Rotator

HOOKS

Item #	Description	Image
Sinskey Iris and IOL Hook		
Straight shaft, 0.2mm hooked tip. Flat serrated handle. Overall length: 118mm.		
AH1180	Sinskey Iris and IOL Hook	 A long, thin surgical instrument with a straight shaft and a small, curved hook at the tip. The handle is flat and serrated. The shaft is marked with 'ACCUTOME USA, CE' and 'AH1180 C'. An inset image shows a close-up of the hooked tip.
Smith Expressor Hook		
Straight shaft, curved 11.5mm hooked tip. Flat handle. Overall length: 150mm.		
AH6950	Smith Expressor Hook	 A long, thin surgical instrument with a straight shaft and a large, curved hook at the tip. The handle is flat and has a textured grip. The shaft is marked with 'Smith Expressor Hk'.
Stevens Tenotomy Hook		
Straight shaft, 6mm hook shaped tip, blunt. Flat handle. Overall length: 120mm.		
AH0750	Stevens Tenotomy Hook	 A long, thin surgical instrument with a straight shaft and a hook-shaped tip. The handle is flat. The shaft is marked with 'ACCUTOME USA, CE' and 'AH0750 C'.
Twist Fixation Hook		
Straight shaft, clockwise and counter-clockwise twist hooks. Round handle.		
AH0760	Twist Fixation Hook, 0.3mm Small, 0.3mm, left, counter-clockwise twist hook. Overall length: 110mm.	 A close-up image of a twist fixation hook, showing the sharp, curved tip and the textured handle.
AH0770	Twist Fixation Hook, 0.3mm Small, 0.3mm, right, clockwise twist hook. Overall length: 110mm.	
AH0780	Twist Fixation Hook, 0.5mm Large, 0.5mm, left, counter-clockwise twist hook. Overall length: 127mm.	
AH0790	Twist Fixation Hook, 0.5mm Large, 0.5mm, right, clockwise twist hook. Overall length: 127mm.	

HOOKS

Item #	Description	Image
Tyrell Iris Hook		
Straight shaft, 2mm hooked tip, 1 sharp prong. Flat handle. Overall length: 127mm.		
AH2240	Tyrell Iris Hook	
University of Kansas Spatula and Hook		
Double-ended, 2mm wide x 24mm long spatula tip, malleable, 3mm wide hooked tip, 90 degree angle. Flat handle. Overall length: 124mm.		
AH5360	University of Kansas Spatula and Hook	
Green Strabismus Hook		
Straight shaft, 7mm wide tip, flat-ended hook tip. Flat handle. Overall length: 130mm.		
AH0590	Green Strabismus Hook	
Jameson Muscle Hook		
Straight shaft, 6mm flat hook with bulbous tip. Flat handle. Overall length: 133mm.		
AH0610	2mm Muscle Hook 2mm bulbous tip.	
AH0620	1.5mm Muscle Hook 1.5mm bulbous tip.	
Von Graefe Strabismus Hook		
Straight shaft, flattened hook tip. Flat handle.		
AH0800	Von Graefe Strabismus Hook, Size 1 8mm from hook bend to tip. Overall length: 140mm.	

HOOKS

Item #	Description	Image
AH0810	Von Graefe Strabismus Hook, Size 2 9mm from hook bend to tip. Overall length: 140mm.	
AH0820	Von Graefe Strabismus Hook, Size 3 10mm from hook bend to tip. Overall length: 143mm.	

RETRACTORS

Item #	Description	Image
Berke-Jaeger Lid Plate		
Double-ended stainless steel lid plate, flat with rounded ends, 20mm and 23mm wide blades. Overall length: 109mm.		
AL2110	Berke-Jaeger Lid Plate	
Conway Lid Retractor		
7.5mm wide blade, flat handle. Overall length: 142mm.		
AL2155	Conway Lid Retractor	
Desmarres Lid Retractor		
Wide retractor blade. Flat, serrated handle with polished finish.		
AL2120	Desmarres Lid Retractor, Size 0 11mm wide retractor blade. Overall length: 140mm.	
AL2130	Desmarres Lid Retractor, Size 1 13mm wide retractor blade. Overall length: 137mm.	
AL2140	Desmarres Lid Retractor, Size 2 15mm wide retractor blade. Overall length: 143mm.	
AL2150	Desmarres Lid Retractor, Size 3 17mm wide retractor blade. Overall length: 145mm.	

RETRACTORS

Item #	Description	Image
--------	-------------	-------

Knapp Lacrimal Sac Retractor

Blunt 4mm x 8mm wide 4-prong tip. Flat serrated handle with polished finish. Overall length: 135mm.

AL2180 [Knapp Lacrimal Retractor](#)

Pupil Iris Retractor

4-prong, intraocular handle, curved.

AL3300 [Pupil Iris Retractor](#)

Rizzuti Expressor and Iris Retractor

Double-ended, small retractor blade, 2.5mm wide, muscle hook/lens expressor tip. Round handle. Overall length: 147mm.

AH2210 [Rizzuti Expressor and Iris Retractor](#)

Schepens Orbital Retractor

Smooth 14mm x 56mm blade with 4.5mm wide notch in blade. Flat serrated handle. Overall length: 148mm.

AL2210 [Schepens Orbital Retractor](#)

DSEK Instruments

DSEK

Item #	Description	Image
Carlson DSEK Smoother		
Angled shaft, 7.5mm from bend to tip, 2.5mm ball tip. Round handle. Overall length: 115mm.		
AH7200	DSEK Smoother	
Descemet's DSEK/DSAEK Stripper		
Strongly curved shaft, 15mm from bend to tip, T-shaped tip, 0.75mm in diameter. Round handle. Overall length: 114mm.		
AH7220	DSEK/DSAEK Stripper	
Rosenwasser Endothelial Stripper		
The Rosenwasser Endothelial Stripper, also known as Melles DSAEK PLK Scraper Style 2, has an angled shaft, 11mm from bend to tip, angled 45 degrees and 90-degree angled sandblasted tip. Round handle. Overall length: 125mm.		
AH7202	Rosenwasser Endothelial Stripper	

Fixation Rings & Picks

FIXATION RINGS

Item #	Description	Image
Fine-Thornton Fixation Ring		
Swivel style, open ring, with various degree markings on top of ring. Round, knurled handle. Overall length: 133mm.		
AR0190	13mm Fixation Ring 13mm diameter ring with 10-degree markings on top.	
AR0190TI	13mm Fixation Ring Titanium. 13mm diameter ring with 10-degree markings on top.	
AR0191	13mm Fixation Ring 13mm diameter ring with 15-degree markings on top.	
AR0197	14mm Fixation Ring 14mm diameter ring with 10-degree markings on top.	
AR0200	16mm Fixation Ring 16mm diameter ring with 10-degree markings on top.	

Flieringa Scleral Fixation Ring

Flieringa Scleral Fixation Rings are stainless steel with a polished finish. Various sizes ranging from 12mm to 23mm. Sets are available.

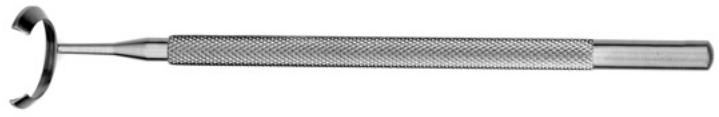

AM0330 12	12mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 12mm in diameter.	
AM0330 13	13mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 13mm in diameter.	
AM0330 14	14mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 14mm in diameter.	
AM0330 15	15mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 15mm in diameter.	
AM0330 16	16mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 16mm in diameter.	
AM0330 17	17mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 17mm in diameter.	
AM0330 18	18mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 18mm in diameter.	
AM0330 19	19mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 19mm in diameter.	
AM0330 20	20mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 20mm in diameter.	
AM0330 21	21mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 21mm in diameter.	
AM0330 22	22mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 22mm in diameter.	
AM0330 23	23mm Scleral Fixation Ring Stainless steel scleral fixation ring set. 23mm in diameter.	
AM0330	Set of 8 Scleral Fixation Rings Stainless steel scleral fixation ring set. This set includes 8 different sized rings that increase in 1.0mm increments. Diameter sizes include: 16mm, 17mm, 18mm, 19mm, 20mm, 21mm, 22mm, and 23mm.	

FIXATION RINGS

Item #	Description	Image
AM0330 SET	<p>Set of 12 Scleral Fixation Rings</p> <p>Stainless steel scleral fixation ring set. This set includes 12 different sized rings that increase in 1.0mm increments. Diameter sizes include: 12mm, 13mm, 14mm, 15mm 16mm, 17mm, 18mm, 19mm, 20mm, 21mm, 22mm, and 23mm.</p>	

Globe Fixation Ring

Fixed style, open ring. 16mm diameter. Concentric grooves on the bottom of ring for fixation of globe. Round handle. Overall length: 133mm.

AR0395	Globe Fixation Ring	
--------	----------------------------	--

Thornton Fixation Ring

Fixed style. Overall length: 133mm.

AR0430	<p>Thornton Fixation Ring, Open</p> <p>Open ring. 13mm diameter with 7mm opening. Flat handle.</p>	
--------	---	---

AR0420	<p>Thornton Fixation Ring, Closed</p> <p>Closed ring. 16mm diameter. Round handle.</p>

FIXATION PICKS

Item #	Description	Image
Anis Scleral Twist Fixation Cone		
Straight shaft, cone with 2.5mm diameter. Round handle.		
AH0510	Anis Scleral Twist Fixation Cone	 

FIXATION PICKS

Item #	Description	Image
Burch Fixation Pick	Straight shaft, dual pronged tips, sharp tipped, 3.0mm apart. Flat handle. Overall length: 131mm.	
AH0520	Burch Fixation Pick	

Forceps & Clamps

CAPSULE FORCEPS

Item #	Description	Image
--------	-------------	-------

Arruga Capsule Forceps

Vaulted shafts, narrow cup jaws. Flat handle. Overall length: 101mm.

AF0215	Arruga Capsule Forceps, Curved 2.0mm cup jaws.
--------	---

AF0210	Arruga Capsule Forceps, Curved 2.5mm cup jaws.
--------	---

Castroviejo Capsule Forceps

Vaulted, cross-action shafts with 2.5mm cup jaws. Flat handle. Overall length: 105mm.

AF0230	Castroviejo Capsule Forceps
--------	---

Gaskin Fragment Forceps

Angled shafts, 11mm from bend to tip, smooth jaws. Flat handle. Overall length: 108mm.

AF6395	Gaskin Fragment Forceps
--------	---

Kraff Capsule Tag Forceps

Angled shafts, 11mm long jaws with 1.5mm smooth platform. Flat, 3-hole handle. Overall length: 108mm.

AF0250	Kraff Capsule Tag Forceps
--------	---

CAPSULORHEXIS FORCEPS

Item #	Description	Image
--------	-------------	-------

Devgan MICS Capsulorhexis Forceps

Vaulted cross-action shafts. Marks on top of shafts at 2.5mm and 5mm. Very fine Utrata style tips. Round handle. Overall length: 119mm.

AF0365T [Devgan MICS Capsulorhexis Forceps](#)

Gianetti MICS Capsulorhexis Forceps

Vaulted thin shanks, 1.5mm maximum tip spread, extremely small delicate tips. Round handle. Overall length: 101mm.

AF0292 [Gianetti MICS Capsulorhexis Forceps](#)

Gimbel Capsulorhexis Forceps

Angled shafts, 12mm from bend to tip. Fine, serrated grasping tips, jaws set to open only 3mm. Light tension. Flat handle. Overall length: 80mm.

AF0295 [Gimbel Capsulorhexis Forceps](#)

Kellan Capsulorhexis Forceps

Angled shafts, 11mm from bend to tip at 45 Degrees with Arruga style tips. Round knurled handle with guide pin. Overall length: 100mm.

AF0288 [Kellan Capsulorhexis Forceps](#)

Lehner-Utrata Capsulorhexis Forceps

Vaulted shafts, 12mm from bend to tip, delicate grasping tips. Flat handle. Overall length: 82mm.

AF0300 C [Lehner-Utrata Capsulorhexis Forceps](#)

CAPSULORHEXIS FORCEPS

Item #	Description	Image
--------	-------------	-------

Masket Capsulorhexis Forceps

Vaulted 11mm shafts, very delicate triangular tips for grasping capsule. Flat handle. Overall length: 101mm.

AF0340 [Masket Capsulorhexis Forceps](#)

Nevyas Capsulorhexis Forceps

Angled shafts, 12mm from bend to tip. Cystotome shaped tip for puncturing capsule. Flat handle. Overall length: 104mm.

AF0530 [Nevyas Capsulorhexis Forceps](#)

O’Gawa-Utrata Capsulorhexis Forceps

Angled shafts, 12mm from bend to tip. Fine, serrated tips for grasping capsule. Round handle. Overall length: 98mm.

AF0355 [O’Gawa-Utrata Capsulorhexis Forceps](#)

Utrata Capsulorhexis Forceps

Angled and vaulted shafts, serrated and triangular tips for grasping capsule.

AF0290 [Utrata Capsulorhexis Forceps, Angled](#)

Angled shafts, 12mm bend from tip. Fine, serrated tips for grasping capsule. Flat handle. Overall length: 82mm.

AF0290 A [Utrata Capsulorhexis Forceps, Angled](#)

Angled shafts, 12mm bend from tip. Fine, serrated tips for grasping capsule. Flat handle. Overall length: 80mm.

AF0290K [Utrata Capsulorhexis Forceps, Angled](#)

Angled shafts, 12mm bend from tip. Fine, serrated tips for grasping capsule. Flat, 3-hole handle. Overall length: 82mm.

I/A & Bimanual Handpieces

DISPOSABLE I/A INSTRUMENTS

Item #	Description	Image
Bimanual I/A System		
Single-use bimanual I/A systems are a solution for preventing infection. These products are guaranteed to be sterile and safe from contaminants. Comes two handpieces per pack, one irrigating, one aspirating. Aspiration-handpiece 0.8 mm [21g] with curved cannula, aspiration port 0.35 mm, textured tip for capsule polishing AEROPLANE nose shape. Irrigation-handpiece 0.8 mm [21G] with curved cannula. Sold 10 per box.		
AB-9105B	Single Port I/A System Open ended irrigation port 0.50 mm for active rinsing.	
AB-9110B	Dual Port I/A System Two irrigation ports 0.45 mm.	
Mono-Manual I/A System		
This range of coaxial I/A systems features straight and angled versions at 30 degrees, 45 degrees, and 65 degrees. All models are available as 19g, 20g, 21g, and 23g versions for incisions of 2.8mm to 1.8 mm. The textured aspiration tips can be used for selective polishing of the posterior capsule. Sold 10 per box.		
AB-9170P	I/A Handpiece, 1.8mm Aspiration cannula angled 45 degrees, for incisions of 1.8mm, polished aspiration head.	
AB-9175P	I/A Handpiece, 1.8mm Aspiration cannula curved, for incisions of 1.8mm, polished aspiration head.	
AB-9155P	I/A Handpiece, 2.2mm Aspiration cannula angled 45 degrees, for incisions of 2.2mm, polished aspiration head.	
AB-9160P	I/A Handpiece, 2.2mm Aspiration cannula curved, for incisions of 2.2mm, polished aspiration head.	
AB-9115	I/A Handpiece, 2.5mm Aspiration cannula straight, for incisions of 2.5mm, textured aspiration head.	
AB-9125P	I/A Handpiece, 2.5mm Aspiration cannula angled 45 degrees, for incisions of 2.5mm, polished aspiration head.	

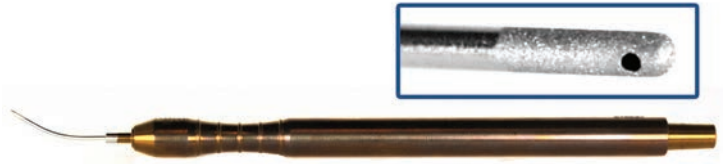

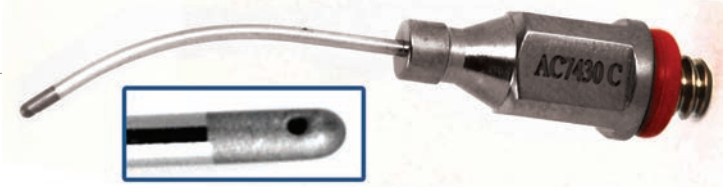

DISPOSABLE I/A INSTRUMENTS

Item #	Description	Image
AB-9135	I/A Handpiece, 2.5mm Aspiration cannula angled 65 degrees, for incisions of 2.5mm, textured aspiration head.	
AB-9110	I/A Handpiece, 2.8mm Aspiration cannula straight, for incisions of 2.8mm, textured aspiration head.	
AB-9120	I/A Handpiece, 2.8mm Aspiration cannula angled 45 degrees, for incisions of 2.8mm, textured aspiration head.	
AB-9130	I/A Handpiece, 2.8mm Aspiration cannula angled 65 degrees, for incisions of 2.8mm, textured aspiration head.	

REUSABLE I/A INSTRUMENTS

Item #	Description	Image
Bimanual Aspirating Unit		
Reusable Bimanual Aspirating Units come in 21 gauge or 23 gauge cannula tips size options. Each cannula tip has a curved shaft with a single 0.3mm port and closed round tip. Aspirating handle is titanium. Overall length: 111mm.		
AC7032	Bimanual Aspirating Unit, 21g 21 gauge, smooth cannula tip.	
AC7030	Bimanual Aspirating Unit, 21g 21 gauge, sandblasted capsule polisher tip.	
AC7100	Bimanual Aspirating Unit, 23g 23 gauge, smooth cannula tip.	

REUSABLE I/A INSTRUMENTS

Item #	Description	Image
AC7110	Bimanual Aspirating Unit, 23g 23 gauge, sandblasted capsule polisher tip.	 A long, thin, gold-colored instrument with a curved tip. An inset shows a close-up of the sandblasted tip with a small hole.
Bimanual Aspiration Cannula Tip		
Reusable Bimanual Aspiration Cannula Tips come in 21 gauge or 23 gauge with a curved shaft. This is only the tip not the whole unit. Each tip has a sandblasted capsule polisher tip with a single 0.3mm sideport. Overall length: 21mm.		
AC7430	Bimanual Aspiration Tip, 21g 21 gauge.	 A curved, silver-colored tip with a handle. An inset shows a close-up of the sandblasted tip with a sideport. The handle has 'AC7430 C' engraved on it.
AC7431	Bimanual Aspiration Tip, 23g 23 gauge.	
Bimanual Irrigating Unit		
Reusable Bimanual Irrigating Units come in 21 gauge or 23 gauge cannula tips size options. Each cannula tip has a straight or curved shaft and various tip types. Irrigating handle is titanium. Overall length: 111mm.		
AC7000	Bimanual Irrigating Unit, 21g 21 gauge cannula tip, straight shaft, open ended.	 A long, blue handle with a straight, open-ended cannula tip. An inset shows the tip's open end.
AC7010	Bimanual Irrigating Unit, 21g 21 gauge cannula tip, curved shaft, open ended.	 A long, blue handle with a curved, open-ended cannula tip. An inset shows the tip's open end.
AC7040	Bimanual Irrigating Unit, 21g 21 gauge cannula tip, straight shaft, 0.5mm dual ports, closed rounded tip.	 A long, blue handle with a straight shaft and a closed, rounded tip. An inset shows the tip's closed end. The handle has 'ACUTOME USA' and 'AC7040 C' engraved on it.
AC7050	Bimanual Irrigating Unit, 21g 21 gauge cannula tip, curved shaft, 0.5mm dual ports, closed rounded tip.	 A long, blue handle with a curved shaft and a closed, rounded tip. An inset shows the tip's closed end. The handle has 'ACUTOME USA' and 'AC7050 C' engraved on it.
AC7130	Bimanual Irrigating Unit, 23g 23 gauge cannula tip, thin wall, curved shaft, 0.4mm dual ports, closed rounded tip.	 A long, blue handle with a curved shaft and a closed, rounded tip. An inset shows the tip's closed end. The handle has 'ACUTOME USA' and 'AC7130 C' engraved on it.

REUSABLE I/A INSTRUMENTS

Item #	Description	Image
AC7120	Bimanual Irrigating Unit, 23g 23 gauge cannula tip, thin wall, straight shaft, 0.4mm dual ports, closed rounded tip.	 A blue bimanual irrigating unit with a straight shaft and a closed rounded tip. An inset image shows a close-up of the tip. The handle has 'ACCUTOME USA' and 'C' printed on it.

Bimanual Irrigation Cannula Tip

Reusable Bimanual Irrigation Cannula Tips come in 21 gauge or 23 gauge with a curved shaft. This is only the tip not the whole unit. Various tip types are available. Overall length: 21mm.

AC7450	Bimanual Irrigation Tip, 21g 21 gauge, 0.5mm dual ports, closed rounded tip.	 A blue bimanual irrigation tip with a curved shaft and a closed rounded tip. An inset image shows a close-up of the tip. The handle has 'ACCUTOME USA' and 'C' printed on it.
--------	--	--

AC7451	Bimanual Irrigation Tip, 23g 23 gauge, thin wall, 0.4mm dual ports, closed rounded tip.	 A blue bimanual irrigation tip with a curved shaft and a closed rounded tip. An inset image shows a close-up of the tip. The handle has 'ACCUTOME USA' and 'C' printed on it.
--------	---	---

AC7530	Bimanual Irrigation Tip, 23g 23 gauge, thin wall, 0.4mm dual oval ports, closed rounded tip.	 A blue bimanual irrigation tip with a curved shaft and a closed rounded tip. An inset image shows a close-up of the tip. The handle has 'ACCUTOME USA' and 'C' printed on it.
--------	--	--

Donnenfeld Irrigating Hook

Designed in conjunction with Eric D. Donnenfeld, M.D., specifically for the placement of Toric IOLs. The stainless steel Donnenfeld Irrigating Hook is 23 gauge and has two irrigating ports that are positioned at the tip of the instrument, which open the capsular bag allowing the surgeon to rotate the Toric IOL. The hook on the bottom of the instrument gently grabs the haptic for rotation.

AC8000	Donnenfeld Irrigating Hook	 A stainless steel Donnenfeld Irrigating Hook with a curved shaft and a hook at the tip. An inset image shows a close-up of the hook. The handle has 'ACCUTOME USA' and 'C' printed on it.
--------	-----------------------------------	--

I/A Handpiece

Please note that titanium handles are only interchangeable with titanium tips and stainless handles are only interchangeable with stainless tips. Replacement O-ring sets are also available for both stainless and titanium products. Please note that silicone sleeves are not included with tips.

AC5120	Stainless Steel I/A Handpiece Male aspiration connector in stainless steel.	 A stainless steel I/A handpiece with a male aspiration connector. The handle has 'AC5120 C' printed on it.

Knife Handles

BARD-PARKER KNIFE HANDLES

Item #	Description	Image
Bard-Parker Knife Handle		
Knife handle compatible with 10, 11, 12, and 15 style blades. Flat handle.		
AH2505	Bard-Parker Knife, #3 Handle Ruler markings. Overall length: 124mm.	
AH2506	Bard-Parker Knife, #7 Handle Overall length: 165mm.	
AH2510	Bard-Parker Knife, #9 Handle Overall length: 116mm.	

BEAVER CHUCK KNIFE HANDLES

Item #	Description	Image
Beaver Chuck Knife Handle		
Collet tip, compatible with 50, 60, and 70 series blades. Round handle. Overall length: 102mm.		
AH2515	Beaver Chuck Knife, #3 Handle	

Reusable Knives

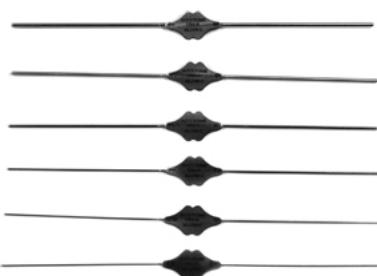

REUSABLE KNIVES

Item #	Description	Image
Gill Corneal Knife		
Straight shaft, 3mm x 18mm smooth blade. Flat handle. Overall length: 119mm.		
AH2540	Gill Corneal Knife	
Martinez Double-Ended Corneal Dissector Knife		
Double-ended, angled shafts, 11mm from bend to tip, 3mm wide sharp blades. Flat handle. Overall length: 127mm.		
AH2595	Martinez Double-Ended Corneal Knife	
Tooke Corneal Knife		
Straight shaft, 3mm x 18mm smooth blade. Flat handle. Overall length: 119mm.		
AH2580	Tooke Corneal Knife	

Lacrimal Instruments

LACRIMAL PROBES

Item #	Description	Image
Bowman Lacrimal Probe Set		
Set of six stainless steel probes. Double-ended. Overall length: 149mm.		
AL1375	Bowman Lacrimal Probe Set	
Bowman Lacrimal Probe		
Variety of sizes. Sterling silver. Overall length: 149mm.		
AL1330	Bowman Lacrimal Probe Sizes 0000 and 000 Sizes: 0000 and 000.	
AL1320	Bowman Lacrimal Probe Sizes 00 and 0 Sizes: 00 and 0.	
AL1340	Bowman Lacrimal Probe Sizes 1 and 2 Sizes: 1 and 2.	
AL1350	Bowman Lacrimal Probe Sizes 3 and 4 Sizes: 3 and 4.	
AL1360	Bowman Lacrimal Probe Sizes 5 and 6 Sizes: 5 and 6.	

LACRIMAL PROBES

Item #	Description	Image
ALI370	Bowman Lacrimal Probe Sizes 7 and 8 Sizes: 7 and 8.	

Catalano Intubation Probe Set

Set of two, 0.7mm diameter probes attached to 30.5cm long silicone tubing, 0.012" I.D., 0.025" O.D.

ALI530	Catalano Intubation Set	
--------	--------------------------------	--

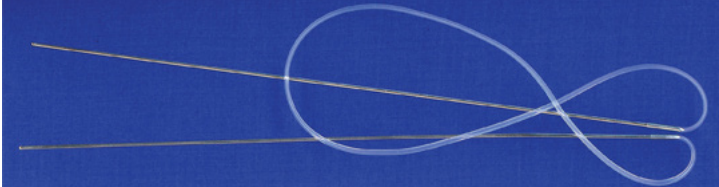

Pigtail Probe

Stainless steel, double-ended, straight shafts with pigtail curved probes on both ends, 8mm blunt probe tips with suture eye holes. Round handle. Overall length: 143mm.

ALI420	Pigtail Probe	
--------	----------------------	---

Jackson Lacrimal Intubation Set

2 blunt 0.9mm diameter probes, attached to 30.5cm long silicone tubing, 0.012" I.D., 0.025" O.D.

LACRIMAL DILATORS

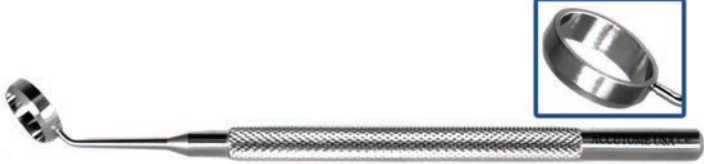

Item #	Description	Image
	Castroviejo Double-Ended Lacrimal Dilator	
	One needle-point end and one medium-taper end, round, knurled handle. Overall length: 140mm.	
ALI380	Castroviejo Lacrimal Dilator	

LACRIMAL DILATORS

Item #	Description	Image
Hosford Double-Ended Lacrimal Dilator		
2.0mm tapered end, gradually tapered other end, rounded handle. Overall length 140mm.		
AL1390	Hosford Double-Ended Lacrimal Dilator	
Infant Lacrimal Dilator		
Very fine, blunt tip. Round handle. Overall length: 79mm.		
AL1280	Infant Lacrimal Dilator	
Muldoon Lacrimal Dilator		
Medium 27mm taper, distal end is straight to act as a guide for the tapered dilator that follows. Round, knurled handle. Overall length: 98mm.		
AL1410	Muldoon Lacrimal Dilator	
Ruedemann Lacrimal Dilator		
Short 12mm taper, needle type. Round handle. Overall length: 73mm.		
AL1430	Ruedemann Lacrimal Dilator	
Wilder Lacrimal Dilator		
Long, medium, and short taper, blunt tip, round handle. Overall length: 98mm.		
AL1440	Wilder Lacrimal Dilator, Long Long 32mm taper.	
AL1450	Wilder Lacrimal Dilator, Medium Medium 23mm taper.	
AL1460	Wilder Lacrimal Dilator, Short Short 19mm taper.	

LASEK Instruments

LASEK INSTRUMENTS

Item #	Description	Image
Camellin LASEK Trephine		
Doubled-ended. Flat handle. Overall length: 114mm.		
AR0580	8mm Camellin LASEK Trephine 8mm LASEK trephine with 8.5mm alcohol well.	
AR0585	9mm Camellin LASEK Trephine 9mm LASEK trephine with 9.5mm alcohol well	
LASEK Alcohol Well		
7.5mm to 9.5mm diameter. Round handle.		
AR0603	7.5mm LASEK Alcohol Well 7.5mm diameter.	
AR0600	8.5mm LASEK Alcohol Well 8.5mm diameter	
AR0602	9.0mm LASEK Alcohol Well 9.0mm diameter.	
AR0605	9.5mm LASEK Alcohol Well 9.5mm diameter.	
LASEK Epithelial Trephine		
8.0mm and 9.5mm diameter. Round handle.		
AR0610	8.0mm LASEK Epithelial Trephine 8.0mm diameter.	
AR0616	9.5mm LASEK Epithelial Trephine 9.5mm diameter.	

Lens Loops

LENS LOOPS

Item #	Description	Image
Gills-Welsh Lens Loop		
Slightly curved loop tip, ultra thin and smooth loop. Flat handle.		
AH3110	Gills-Welsh Lens Loop Straight shaft, 6mm wide x 7mm long loop. Overall length: 135mm.	
AH3200	Double-Ended Gills-Welsh Lens Loop Double-ended. One side has a straight shaft with 5mm wide x 7mm long loop. One side has a curved shaft with olive-shaped tip. Overall length: 121mm.	
Kansas Lens Loop		
Curved shaft, 3.0mm wide-looped tip, serrated. Flat handle. Overall length: 137mm.		
AH3130	Kansas Lens Loop	
Keener-Alt Lens Loop		
Straight shaft, curved loop tip, serrated loop, 3mm wide loop. Flat handle. Overall length: 137mm.		
AH3150	Keener-Alt Lens Loop	
Kirby Intra-Capsular Lens Loop		
Straight shaft, 5mm x 10mm, curved, smooth loop tip. Round handle. Overall length: 138mm.		
AH3170	Kirby Intra-Capsular Lens Loop	 

LENS LOOPS

Item #	Description	Image
--------	-------------	-------

Lewis Lens Loop

Straight shaft, curved tear-drop-shaped loop. Flat handle. Overall length: 134mm.

AH3180	Lewis Lens Loop, Large Large 5mm x 7mm loop.	 
AH3190	Lewis Lens Loop, Small Small 4mm x 6mm loop.	

**New Orleans Eye and Ear Lens Loop**

Straight shaft, curved loop tip, 5mm wide x 10mm long smooth oval loop. Flat handle. Overall length: 142mm.

AH3210	New Orleans Eye and Ear Lens Loop
--------	--

**Simcoe Double-Ended Nucleus Loop**

Double-ended, both ends angled loops, 4mm wide x 20mm long loops, serrations on tops of loops. Round handle. Overall length: 140mm.

AH3220	Simcoe Double-Ended Nucleus Loop
--------	---

**Wilder Lens Loop**

Straight shaft, curved tip, long tear-drop-shaped loop, serrated 4mm x 14mm loop. Flat handle. Overall length: 136mm.

AH3230	Wilder Lens Loop
--------	-------------------------

Needle Holders

LOCKING NEEDLE HOLDERS

Item #	Description	Image
Anis Needle Holder, Locking		
Stainless steel Anis Needle Holders with locking mechanisms come with either a straight or curved extra delicate 8mm jaw pattern. Overall length: 127mm.		
AN0120	Anis Needle Holder, Curved Curved shaft.	
AN0140	Anis Needle Holder, Straight Straight shaft.	
Barraquer Needle Holder, Locking		
Straight and curved jaws, with various jaw sizes and styles. Comes with a locking mechanism.		
AN0210	Barraquer Needle Holder, Straight Straight, 9mm delicate jaws with lock. Overall length: 130mm.	 
AN0210T1	Barraquer Needle Holder, Straight Titanium. Straight, 9mm delicate jaws with lock. Overall length: 130mm.	 
AN0150	Barraquer Needle Holder, Curved Curved, 9mm delicate jaws with lock. Overall length: 130mm.	 
AN0510	Barraquer Needle Holder, Curved Curved, 9mm medium jaws with lock. Overall length: 130mm.	 
AN0150T1	Barraquer Needle Holder, Curved Titanium, curved, 9mm delicate jaws with lock. Overall length: 133mm.	 
AN0160	Barraquer Needle Holder, Curved Curved, 9mm standard jaws with lock. Overall length: 130mm.	 

LOCKING NEEDLE HOLDERS

Item #	Description	Image
AN0160TI	Barraquer Needle Holder, Curved Titanium, curved, 9mm medium jaws with lock. Overall length: 130mm.	 
AN0170T	Barraquer Needle Holder, Curved Titanium, curved, 10mm fine jaws with lock. Overall length: 136mm.	 
Castroviejo Needle Holder, Locking		
Straight and curved jaws, with various jaw sizes and styles. Comes with a locking mechanism.		
AN0310	Castroviejo Needle Holder, Straight Straight, 9mm fine jaws with lock. Overall length: 139mm.	 
AN0270	Castroviejo Needle Holder, Straight Straight, 9mm medium jaws with lock. Overall length: 140mm.	 
AN0300	Castroviejo Needle Holder, Straight Straight, 10mm medium jaws with lock. Overall length: 136mm.	 
AN0300TI	Castroviejo Needle Holder, Straight Titanium. Straight, 10mm medium jaws with lock. Overall length: 136mm.	 
AN0290	Castroviejo Needle Holder, Straight Straight, 12mm heavy jaws with lock. Overall length: 136mm.	 
AN0280	Castroviejo Needle Holder, Straight Straight, 16mm heavy jaws with lock. Overall length: 149mm.	 

LOCKING NEEDLE HOLDERS

Item #	Description	Image
AN0230	Castroviejo Needle Holder, Curved Curved, 9mm fine jaws with lock. Overall length: 139mm.	 A pair of curved needle holders with fine, serrated jaws. The handle is silver with a locking mechanism. An inset image shows a close-up of the jaws.
AN0240	Castroviejo Needle Holder, Curved Curved, 11mm medium jaws with lock. Overall Length: 135mm.	 A pair of curved needle holders with medium, serrated jaws. The handle is silver with a locking mechanism. An inset image shows a close-up of the jaws. The handle is marked with 'AN0240'.
AN0240TI	Castroviejo Needle Holder, Curved Titanium, curved, 11mm medium jaws with lock. Overall length: 136mm.	 A pair of curved needle holders with medium, serrated jaws. The handle is blue with a locking mechanism. An inset image shows a close-up of the jaws. The handle is marked with 'AN0240TI' and 'CE'.
AN0250	Castroviejo Needle Holder, Curved Curved, 12mm standard jaws with lock. Overall length: 136mm.	 A pair of curved needle holders with standard, serrated jaws. The handle is silver with a locking mechanism. An inset image shows a close-up of the jaws. The handle is marked with 'ACUTOME AN0250'.

Jaffe Needle Holder

Straight, delicate jaws with lock. Flat, 3-hole handle.

AN0400	Jaffe Needle Holder	 A pair of straight needle holders with delicate, serrated jaws. The handle is silver with a locking mechanism and three circular holes. An inset image shows a close-up of the jaws. The handle is marked with 'AN0400' and 'CE'.
--------	----------------------------	--

Kalt Needle Holder

Kalt Needle Holders with straight jaws. Available in standard, medium, or heavy jaws with or without serration. Flat, cross-action handle. Overall length: 143mm.

AN0410	Heavy Needle Holder Straight, heavy 12mm serrated jaws with lock.	 A pair of straight needle holders with heavy, serrated jaws. The handle is silver with a locking mechanism. The handle is marked with 'ACUTOME'.
AN0430	Medium Needle Holder Straight, medium 10mm finely serrated jaws with lock.	
AN0440	Standard Needle Holder Straight, standard 10mm jaws with lock.	

LOCKING NEEDLE HOLDERS

Item #	Description	Image
McPherson Needle Holder		
McPherson Needle Holders are available in both straight and curved, very delicate 11mm jaw options. Comes with locking mechanism. Flat, cross-action handle. Overall length: 107mm.		
AN0460	Needle Holder, Curved Strongly curved jaws.	
AN0480	Needle Holder, Straight Straight jaws.	
Needle Holder, Locking		
Various stainless steel or titanium needle holders with curved or straight shafts. Different jaw sizes and styles are available. Comes with locking mechanism.		
AN0500	Needle Holder, Curved Curved, 6mm extra delicate jaws with lock. Overall length: 120mm.	
AN0620	Needle Holder, Curved Titanium, curved, 9mm delicate jaws with lock. Overall length: 130mm.	
AN0540	Needle Holder, Straight Straight, 6mm extra delicate jaws with lock. Overall length: 120mm.	
Troutman Needle Holder		
Gently curved, medium 9mm smooth jaws with lock. Round handle with longitudinal serrations. Overall length: 120mm.		
AN0600	Troutman Needle Holder	

NON-LOCKING NEEDLE HOLDERS

Item #	Description	Image
Anis Needle Holder, Non-Locking		
Anis Needle Holders without locks come with either straight or curved 8mm delicate jaws. Various jaw styles are available. Overall length: 127mm.		
AN0110	Anis Needle Holder, Curved Curved jaws.	A pair of stainless steel curved needle holders with 8mm delicate jaws. The handles have a textured grip. A small inset image shows a close-up of the curved jaws. The main image shows the full instrument with 'ACCUTOME USA CH AN0110 C' engraved on the handle.
AN0110TI	Anis Needle Holder, Curved Titanium. Curved jaws.	A pair of blue titanium curved needle holders with 8mm delicate jaws. The handles have a textured grip. A small inset image shows a close-up of the curved jaws. The main image shows the full instrument with 'ACCUTOME USA CH AN0110 C' engraved on the handle.
AN0130	Anis Needle Holder, Straight Straight jaws.	A pair of stainless steel straight needle holders with 8mm delicate jaws. The handles have a textured grip. A small inset image shows a close-up of the straight jaws. The main image shows the full instrument.
Barraquer Needle Holder, Non-Locking		
Straight and curved jaws, with various jaw sizes and styles. No locking mechanisms.		
AN0220	Barraquer Needle Holder, Straight Straight, 9mm jaws. Overall length: 133mm.	A pair of stainless steel straight Barraquer needle holders with 9mm jaws. The handles have a textured grip. A small inset image shows a close-up of the straight jaws. The main image shows the full instrument with 'AN0220' engraved on the handle.
AN0180	Barraquer Needle Holder, Curved Curved, 9mm jaws. Overall length: 130mm.	A pair of stainless steel curved Barraquer needle holders with 9mm jaws. The handles have a textured grip. A small inset image shows a close-up of the curved jaws. The main image shows the full instrument with 'AN0180' engraved on the handle.
AN0180TI	Barraquer Needle Holder, Curved Titanium. Curved, 9mm jaws. Overall length: 130mm.	A pair of blue titanium curved Barraquer needle holders with 9mm jaws. The handles have a textured grip. A small inset image shows a close-up of the curved jaws. The main image shows the full instrument.
AN0190	Barraquer Needle Holder, Curved Curved, 9mm jaws. Overall length: 130mm.	A pair of stainless steel curved Barraquer needle holders with 9mm jaws. The handles have a textured grip. A small inset image shows a close-up of the curved jaws. The main image shows the full instrument with 'ACCUTOME USA CH AN0190 C' engraved on the handle.

NON-LOCKING NEEDLE HOLDERS

Item #	Description	Image
AN0200	Barraquer Needle Holder, Curved Curved, 10mm jaws. Overall length: 130mm.	
AN0200TI	Barraquer Needle Holder, Curved Titanium. Curved, 10mm jaws. Overall length: 136mm.	
AN0170	Barraquer Needle Holder, Curved Curved, 11mm jaws. Overall length: 130mm.	
AN0145	Barraquer Needle Holder, Curved Curved, 9mm jaws. Overall length: 95mm.	

Castroviejo Needle Holder, Non-Locking

Straight and curved medium 10mm jaws. No locking mechanism. Overall length: 136mm.

AN0260	Castroviejo Needle Holder, Curved Curved jaws.	
AN0320	Castroviejo Needle Holder, Straight Straight jaws.	

Cohan Needle Holder

Titanium, curved, 7.5mm fine jaws. No locking mechanism. Overall length: 104mm

AN0350TI	Cohan Needle Holder	
----------	----------------------------	--

NON-LOCKING NEEDLE HOLDERS

Item #	Description	Image
McPherson Needle Holder		
McPherson Needle Holders are available in both straight and curved 11mm jaw options. No locking mechanism. Flat, squeeze handle. Overall length: 107mm.		
AN0470	Needle Holder, Curved Strongly curved, very delicate 11mm jaws.	
AN0490	Needle Holder, Straight Straight, very delicate 11mm jaws.	
Needle Holder, Non-Locking		
Various stainless steel or titanium needle holders with curved or straight shafts. Different jaw sizes and styles are available. No locking mechanism. Flat, squeeze handle.		
AN0560	Needle Holder, Straight Straight, 6mm extra delicate jaws. Overall length: 120mm.	
AN0520	Needle Holder, Curved Curved, 9mm extra delicate jaws. Overall length: 120mm.

Office Instruments

OPHTHALMIC BURRS

Item #	Description	Image
--------	-------------	-------

Aaron Burr 2

The Bovie Aaron Burr 2 is ideal for neurological procedures. Aaron Burr 2 includes one disposable 1mm burr tip (AXI3070) for corneal rust ring removal. An AA alkaline battery is included, and it also comes with a foam-lined case.

AXI3929 **Aaron Burr 2**

**Aaron Burr 2 Accessories**

The Bovie Aaron Burr 2 is ideal for neurological procedures. Aaron Burr 2 has various burr accessories that range in tip size.

AXI4029 **0.5mm Burr Tip**
0.5mm disposable burr tip for use with Bovie AB03, AB04, or equivalent. Sold 10 per box. Overall length: 43mm.

AXI3070 **1mm Burr Tip**
1.0mm disposable burr tip for use with Aaron Burr 2 (AXI3929) or equivalent. For corneal rust ring removal. Sold 10 per box. Overall length: 39mm.

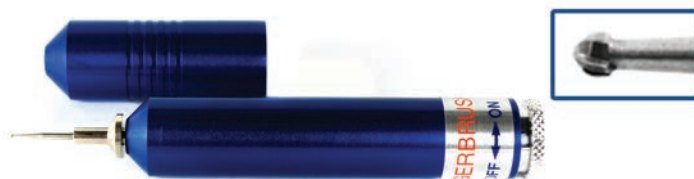

AXI4533 **2.5mm Burr Tip**
2.5mm reusable burr tip for use with Aaron Burr 2 (AXI3929) or equivalent. Sold 1 per box. Overall length: 105mm.

AXI3930 **5mm Burr Tip**
5mm reusable diamond burr tip for use with Aaron Burr 2 (AXI3929) or equivalent. Sold 1 per box. Overall length: 127mm.

**Algerbrush II**

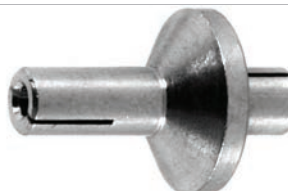

The Algerbrush II has a very low torque motor powered by a single AA battery. The burr in this rotary instrument is used as a "brush" rather than as a drill and the rust ring is thus "brushed" from the cornea or sclera leaving a smooth surface, which heals much faster than with other instruments used for this purpose. Algerbrush II foreign body rust ring remover. Single speed, motorized, AA battery operated handpiece. Comes with tip cover, chuck, and 0.5mm burr. Overall Length: 105mm.

AM0100 **Algerbrush II Corneal Rust Remover**

**Algerbrush II Accessories**

Accessories for the Algerbrush II foreign body rust ring remover. This includes various types and sizes of burrs as well as chucks.

AM0105 **Algerbrush Chuck**
Algerbrush II replacement chuck.

Schocket Double-Ended Scleral Depressor

Stainless steel. Slightly angled shafts, 16mm from bend to tip. T-shaped hammerhead tip on one side and ball-shaped tip on the other. Flat handle, comes with pocket clip. Overall length: 137mm.

AL1130	Schocket Double-Ended Scleral Depressor	
--------	---	--

Punches

The image features a dark blue background with a subtle grid pattern of light blue lines. A prominent horizontal bar with a blue-to-white gradient spans the width of the page, positioned below the title. The title 'Punches' is rendered in a clean, white, sans-serif font.

PUNCHES

Item #	Description	Image
Kelly Descemet's Membrane Punch		
Stainless steel Kelly Descemet's Membrane Punch produces round punches without tissue tags. Punches have serrated squeeze action handles. Overall length: 130mm.		
AM0410	0.75mm Membrane Punch Produces an exact 0.75mm round hole.	
AM0410 1.00	1.0mm Membrane Punch Produces an exact 1.0mm round hole.	

Retinal Picks

RETINAL PICKS

Item #	Description	Image
Olk Angled Retinal Pick		
Straight shaft, 0.5mm angled tip, squared. Round handle. Overall length: 125mm.		
AH5290	110-Degree Retinal Pick 110-degree tip angle.	
AH5310	150-Degree Retinal Pick 150-degree tip angle.	

Scissors

The image features a dark blue background with a subtle, repeating pattern of light blue geometric shapes, possibly stylized letters or symbols. A prominent horizontal bar with a blue-to-white gradient spans the width of the page, positioned below the main title. The title 'Scissors' is rendered in a clean, white, sans-serif font.

CORNEAL SCISSORS

Item # Description Image

Aebli Corneal Scissors

Angled and straight blades and universal standard pattern with blunt tips.

AS0120 Aebli Corneal Scissors, Straight Straight 19mm blades. Ring handle. Overall length: 92mm.

AS0110 Aebli Corneal Scissors, Straight Straight 21mm blades. Ribbon handle. Overall length: 99mm.

AS0100 Aebli Corneal Scissors, Angled Angled 21mm blades. Ribbon handle. Overall length: 99mm.

Aebli Corneal Section Scissors

Angled left and right 18mm blades, blunt tips. Flat, squeeze handle. Overall length: 120mm.

AS0310 Aebli Corneal Scissors, Angled Right Angled right blades.

CORNEAL SCISSORS

Item #	Description	Image
AS0320	Aebli Corneal Scissors, Angled Left Angled left blades.	 

Manson-Aebli Corneal Scissors

Angled left and right 19mm blades, lower blade 1.5mm longer than upper blade, blunt tips. Flat squeeze handle. Overall length: 120mm.

AS1115	Corneal Scissors, Angled Right Angled right blades.	 
AS1105	Corneal Scissors, Angled Left Angled left blades.	

Azar Corneal Scissors

Curved 16mm blades, universal medium model, blunt tips, calibration marks at 1mm to 6mm. Flat handle. Overall length: 115mm.

AS0130	Azar Corneal Scissors	
--------	------------------------------	---

Barraquer Corneal Section Scissors

Angled left and right 19 mm blades, 45-degree angle, blunt tips. Flat squeeze handle, locking handle.

AS1110	Left Section Scissors Angled left blades.	 
AS1120	Right Section Scissors Angled right blades.	

Castroviejo Corneal Scissors

Curved and angled blades with blunt tips and flat squeeze handle.

AS0150	Castroviejo Corneal Scissors, Miniature Curved 11mm blades, universal miniature model, fine tips. Overall length: 106mm.	
AS0180	Castroviejo Corneal Scissors, Miniature Curved left 11mm blades, miniature model. Overall length: 106mm.	 

CORNEAL SCISSORS

Item #	Description	Image
AS0190	Castroviejo Corneal Scissors, Miniature Curved right 11mm blades, miniature model. Overall length: 106mm.	 A pair of miniature corneal scissors with curved right blades. The handle has a textured grip and the model number AS0190 is visible.
AS0140	Castroviejo Corneal Scissors, Miniature Straight 19mm blades, universal miniature model. Overall length: 106mm.	 A pair of miniature corneal scissors with straight blades. The handle has a textured grip and the model number AS0140 is visible.
AS0200	Castroviejo Corneal Scissors, Medium Strong curved 16mm blades, universal medium model. Overall length: 115mm.	 A pair of medium-sized corneal scissors with strong curved blades. The handle has a textured grip and the model number AS0200 is visible.
AS0170	Castroviejo Corneal Scissors, Medium Medium curved 16mm blades, universal medium model. Overall length: 115mm.	 A pair of medium-sized corneal scissors with medium curved blades. The handle has a textured grip and the model number AS0170 is visible.
AS0160	Castroviejo Corneal Scissors, Medium Medium curved 16mm blades, universal medium model. 3-hole handle. Overall length: 115mm.	 A pair of medium-sized corneal scissors with medium curved blades and a 3-hole handle. The handle has a textured grip and the model number ACCUTOME AS 0160 is visible.

Castroviejo Corneal Section Scissors

Curved and angled blades with flat squeeze handle.

AS1150	Castroviejo Corneal Scissors, Left Curved left 9mm blades, lower blade 0.5mm longer than upper blade, sub-miniature model, blunt tips. Overall length: 103mm.	 A pair of sub-miniature corneal section scissors with curved left blades. The handle has a textured grip and the model number AS1150 is visible.
AS1200	Castroviejo Corneal Scissors, Right Curved right 9mm blades, lower blade 0.5mm longer than upper blade, sub-miniature model, blunt tips. Overall length: 103mm.	 A pair of sub-miniature corneal section scissors with curved right blades. The handle has a textured grip and the model number AS1200 is visible.
AS1160	Castroviejo Corneal Scissors, Left Curved left 13mm blades, lower blade 0.5mm longer than upper blade, mid-miniature model, blunt tips. Overall length: 106mm.	 A pair of mid-miniature corneal section scissors with curved left blades. The handle has a textured grip and the model number ACCUTOME CE is visible.

CORNEAL SCISSORS

Item #	Description	Image
ASI210	Castroviejo Corneal Scissors, Right Curved right 13mm blades, mid-miniature model, lower blade 0.5mm longer than upper blade, blunt tips. Overall length: 106mm.	
ASI170	Castroviejo Corneal Scissors, Left Angled left 14mm blades, blunt tips, lower blade 0.5mm longer than upper blade. Overall length: 106mm.	
ASI220	Castroviejo Corneal Scissors, Right Angled right 14mm blades, blunt tips, lower blade 0.5mm longer than upper blade. Overall length: 106mm.	
ASI140	Castroviejo Corneal Scissors, Left Angled left 18mm blades, curved to conform to the curve of the limbus, lower blade 1mm longer than upper blade, blunt tips. Overall length: 112mm.	
ASI190	Castroviejo Corneal Scissors, Right Angled right 18mm blades, curved to conform to the curve of the limbus, lower blade 1mm longer than upper blade, blunt tips. Overall length: 112mm.	

Castroviejo Keratoplasty Scissors

Angled to side 16mm blades, universal model, medium, lower blade 1mm longer than upper blade, blunt tips. Flat handle. Overall length: 110mm.

AS0210	Castroviejo Keratoplasty Scissors	
--------	--	--

Hoffer-Stern Scissors

Angled forward 10mm blades, extra thin, blunt tips. Flat, serrated handle. Overall length: 112mm.

AS5560	Hoffer-Stern Curved Scissors

TENOTOMY SCISSORS

Item #	Description	Image
Westcott Tenotomy Scissors		
Curved left and right blades, blunt tips. Flat, squeeze handle.		
AS4590	Westcott Tenotomy Scissors, Curved Curved 15mm blades, medium, blunt tips. 3-hole handle. Overall length: 118mm.	 
AS4600	Westcott Tenotomy Scissors, Curved Left Curved left 19mm blades, rounded, blunt tips. Overall length: 115mm.	 
AS4610	Westcott Tenotomy Scissors, Curved Right Curved right 19mm blades, blunt tips. Overall length: 115mm.	 
AS4620	Westcott Tenotomy Scissors, Curved Right Curved right 23mm blades, round, blunt tips. Wide handle. Overall length: 143mm.	 

UTILITY SCISSORS

Item #	Description	Image
Lister Bandage Scissors		
Angled blades, probe point tip. Ring handle.		
AS6515	50mm Bandage Scissors 50mm blade from mid-screw to tip. Overall length: 119mm.	 
AS6516	67mm Bandage Scissors 67mm blade from mid-screw to tip. Overall length: 181mm.	 

UTILITY SCISSORS

Item # Description Image

Operating Scissors

Straight blades with ring handle. Overall length: 147mm.

AS5240 53mm Operating Scissors
53mm blade from mid-screw to tip, one sharp tip/blade, one blunt tip/blade.

AS6510 56mm Operating Scissors
56mm blade from mid-screw to tip, sharp tips.

Utility Scissors

25mm blades and blunt tips.

AS5190 Utility Scissors, Curved
Slightly curved 18mm blades, blunt. Ribbon handle. Overall length: 99mm.

AS5220 Utility Scissors, Curved
Curved 18mm blades, blunt tips. Ribbon handle. Overall length: 94mm.

AS5200 Utility Scissors, Curved
Curved 25mm blades, blunt tips. Ribbon handle. Overall length: 103mm.

VANNAS SCISSORS

Item # Description Image

Gills-Welsh-Vannas Micro Scissors

Angled blades, sharp, pointed tips. Flat, squeeze handle.

AS5540 5mm Gills-Welsh-Vannas Scissors
5mm blades. Overall length: 80mm.

AS5550 11mm Gills-Welsh-Vannas Scissors
11mm blades. Overall length: 86mm.

Stern-Gills Scissors

Angled forward 10mm blades, extra-thin, sharp tips. Flat, 3-hole squeeze handle. Overall length: 112mm.

AS5570 Stern-Gills Scissors

Uribe-Stern Scissors

Curved forward 10mm blades, extra-thin, sharp tips. Flat, 3-hole squeeze handle. Overall length: 112mm.

AS5580 Uribe-Stern Scissors

Uthoff-Gills Capsulotomy Scissors

Angled 10mm blades, curved, blunt tips. Flat, squeeze handle.

AS5590 Uthoff-Gills Capsulotomy Scissors

VANNAS SCISSORS

Item #	Description	Image
Vannas Capsulotomy Scissors		
6mm blades, sharp pointed tips. Flat, squeeze handle.		
AS5610	Vannas Capsulotomy Scissors, Angled 30-degree angled blades, sharp, pointed tips. Overall length: 81mm.	 
AS5640	Vannas Capsulotomy Scissors, Curved Curved blades. Overall length: 86mm.	 
AS5680	Vannas Capsulotomy Scissors, Straight Straight blades. Overall length: 84mm.	 
AS5600	Vannas Capsulotomy Scissors, Angled Blades angled to side. Overall length: 81mm.	 
Vannas Scissors		
Curved and straight blades with extra-thin, sharp, pointed tips. Flat, 3-hole squeeze handle. Overall length: 112mm.		
AS5660	Vannas Scissors, Straight Straight 7mm blades.	 
AS5630	Vannas Scissors, Curved Curved 7mm blades.	 
AS5670	Vannas Scissors, Straight Straight 10mm blades.

AS5650	Vannas Scissors, Curved Curved 10mm blades.	

Spatulas

CYCLODIALYSIS SPATULAS

Item #	Description	Image
--------	-------------	-------

Barraquer Cyclodialysis Spatula

Angled shaft, 0.5mm x 15mm angled round blade, smooth, pointed tip, slightly curved blade. Round handle. Overall length: 120mm.

AH5100 [Barraquer Cyclodialysis Spatula](#)

Castroviejo Cyclodialysis Spatula

Double-ended and single-ended, angled shafts. Flat handle.

AH5140 [0.25mm Castroviejo Cyclodialysis Spatula](#)
 Double-ended, 0.25mm spatula, 10mm from bend to tip, 15mm from bend to tip. Overall length: 137mm.

AH5150 [0.5mm Castroviejo Cyclodialysis Spatula](#)
 Double-ended, 0.5mm flat posterior surface, 10mm from bend to tip, 15mm from bend to tip, semi-sharp tips. Overall length: 135mm.

AH5130 [0.75mm Castroviejo Cyclodialysis Spatula](#)
 0.75mm spatula, 10mm from bend to tip. Overall length: 134mm.

AH5120 [1.0mm Castroviejo Cyclodialysis Spatula](#)
 1.0mm spatula, 16mm from bend to tip. Overall length: 140mm.

Castroviejo Synechia Spatula

Double-ended, angled shafts, 0.5mm spatulas, 15mm from bend to tip, 10mm from bend to tip. Flat handle. Overall length: 133mm.

AH5160 [Castroviejo Synechia Spatula](#)

CYCLODIALYSIS SPATULAS

Item #	Description	Image
Wheeler/Elschnig Cyclo dialysis Spatula		
Double-ended, curved shaft, 1.75mm spatula, 30mm from bend to tip on both ends. Flat handle. Overall length: 140mm.		
AH5370	Wheeler Cyclo dialysis Spatula	

DSEK SPATULAS

Item #	Description	Image
Cindy Sweeper DSEK Spatula		
Angled shaft, 0.7mm spatula, 12mm from bend to tip, cylindrical smooth tip, blunt. Round handle. Overall length: 114mm.		
AH7201	Cindy Sweeper DSEK Spatula	

FEMTOSECOND SPATULAS

Item #	Description	Image
Eippert Femtosecond Spatula		
This stainless steel Eippert Femtosecond Spatula is double-ended for greater versatility and has straight shafts with 0.9mm and 2.0mm blunt thin tips to maintain proper wound architecture. Helps to ensure open incisions after femtosecond laser incisions.		
AH4605	Eippert Femtosecond Spatula, Long Long, round handle design that is ideal for use during femtosecond laser surgery. Overall length: 146mm.	
AH4606	Eippert Femtosecond Spatula, Short Short, round handle design that is ideal for use with the aberrometer. Overall length: 120mm.	

FEMTOSECOND SPATULAS

Item #	Description	Image
--------	-------------	-------

Lane Femtosecond Incisional Spatula

Double-ended Lane femtosecond cataract incisional spatula is specifically designed for opening femtosecond-created primary, secondary, and arcuate incisions in cataract surgery. One end is used to open and spread the vertical/tangential component of the femtosecond-created incision and the other end is used to open the tunnel aspect of the incision entry into the anterior chamber. Double-ended, one-angled shaft with blunt spatulated tip, 10mm from bend to tip, max depth of 0.25mm. One straight shaft with 90-degree angle, curved spatulated tip. Round handle. Overall length: 125mm.

AH6610 Lane Femtosecond Spatula

Lee Femtosecond Spatula

The Lee spatula is a femtosecond cataract instrument. Flattened tip design offers benefits of opening both sideport and main incisions. A short handle allows for easy maneuvering under modern surgical abberometers. Angled shaft. Round handle. Overall length: 115mm.

AH4620 Lee Femtosecond Spatula

Slade Femtosecond Laser Spatula

Vaulted shaft, 22.0mm from bend to tip, flattened tip for opening the main and sideport incisions. Round handle. Overall length: 115mm.

AH4600 Slade Femtosecond Spatula

Suarez Spreader

Straight shaft, angled blade tip, 1mm x 2mm blade. Round handle. Overall length: 118mm.

AH8150 Suarez Spreader

IRIS SPATULAS

Item #	Description	Image
--------	-------------	-------

Barraquer Iris Spatula

Angled shaft, 15mm from bend to tip, 0.5mm cylindrical smooth tip. Round handle. Overall length: 122mm.

AH5110	Barraquer Iris Spatula	
<p>Angled shaft, 15mm from bend to tip, 0.5mm cylindrical smooth tip. Round handle. Overall length: 122mm.</p>		

Culler Iris Spatula

Curved shaft, 1mm wide x 28mm long spatula blade. Flat handle. Overall length: 127mm.

AH5170	Culler Iris Spatula	
<p>Curved shaft, 1mm wide x 28mm long spatula blade. Flat handle. Overall length: 127mm.</p>		

Iris Spatula

Slightly curved shafts with various size malleable blade tips.

AH5220	1mm Iris Spatula	
<p>1mm wide x 30mm long tip. Flat handle. Overall length: 130mm.</p>		

AH5230	2mm Iris Spatula	
<p>2mm wide x 33mm long tip. Round handle. Overall length: 136mm.</p>		

LASIK SPATULAS

Item #	Description	Image
--------	-------------	-------

Intralase Flap Lifter and Retreatment Spatula

Double-ended, angled shaft, 1.5mm from bend to tip, slightly pointed tip, spatula tip, Z-shaped tip, 12mm wide cylindrical spatula, slightly pointed tip. Round handle. Overall length: 106mm.

AH5275	Intralase Flap Lifter and Retreatment Spatula	
<p>Double-ended, angled shaft, 1.5mm from bend to tip, slightly pointed tip, spatula tip, Z-shaped tip, 12mm wide cylindrical spatula, slightly pointed tip. Round handle. Overall length: 106mm.</p>		

LASIK SPATULAS

Item #	Description	Image
Katzen LASIK Flap "Unzipper"		
Double-ended, straight shafts, modified sinskey hook, bi-convex spatula, beveled notches. Round handle. Overall length: 133mm.		
AH1000	Katzen LASIK Flap	

PHACO SPATULAS

Item #	Description	Image
Gimbel Nucleus Spatula		
Angled 30-degree shaft, 9mm from bend to tip, 0.25mm diameter, smooth. Round handle. Overall length: 121mm.		
AH5190	Gimbel Nucleus Spatula	

Jaffe Lens Spatula		
Angled shaft, 10mm from bend to tip, 0.5mm wide, flat spatula. Flat handle. Overall length: 114mm.		
AH5240	Jaffe Lens Spatula	

Johnson Spatula		
Angled shaft, 10mm from bend to tip, 0.25mm wide blunt blade tip. Round handle. Overall length: 105mm.		
AH5500	Johnson Spatula	

Knolle Lens Nucleus Spatula and Anterior Chamber Gauge		
Curved shaft, flat spatula blade, 30mm long blade, marks at 5mm, 6mm, and 7mm from tip. Round handle. Overall length: 126mm.		
AH5260	Knolle Spatula and Chamber Gauge	

PHACO SPATULAS

Item #	Description	Image
--------	-------------	-------

Knolle Nucleus Spatula

Straight shaft, 0.5mm wide tip, malleable. Round handle. Overall length: 127mm.

AH5265	Knolle Nucleus Spatula	
--------	--	--

Koch Nucleus Spatula

Curved shaft, 1mm wide, duckbill-shaped tip. Round handle. Overall length: 115mm.

AH5256	Koch Nucleus Spatula, Smooth	
	1mm wide tip.	

AH5255	Koch II-Nucleus Spatula, Notched	
	1mm wide tip with notches.	

Koch Phacoemulsification Spatula

Curved shaft, duckbill-shaped spatula tip, 0.8mm wide tip. Round handle. Overall length: 117mm.

AH5267	Koch Phacoemulsification Spatula	
--------	--	--

Lieppman Nucleus Spatula

Angled shaft, forked tip, 0.5mm wide, blunt tip. Round handle. Overall length: 121mm.

AH5270	Lippman Nucleus Spatula	
--------	---	--

Rowen Phaco Spatula

Double-ended, angled shafts, 9mm from bend to tip, phaco splitter, 60-degree interior cutting edge, blunt tip, 7mm from bend to tip, nucleus rotator, Y-shaped tip. Round handle. Overall length: 143mm.

AH5355	Rowen Phaco Spatula	
--------	-------------------------------------	--

REFRACTIVE SPATULAS

Item #	Description	Image
--------	-------------	-------

Kimura Platinum Spatula

Straight shaft, 34mm shaft, 4mm wide x 17.5mm flat platinum spatula. Flat handle. Overall length: 149mm.

AH5250	Kimura Platinum Spatula	

Maloney PRK Spatula

Angled shaft, 5mm from bend to tip, 2mm wide spatula tip, semi-sharp. Round handle. Overall length: 120mm.

AH5390	Maloney PRK Spatula	

Paton Spatula and Spoon

Double-ended, angled shaft, 8mm from bend to tip, 1.5mm flat spatula, curved 6mm teardrop-shaped spoon with three long openings. Flat handle. Overall length: 140mm.

AH6140	Paton Spatula and Spoon	

RETINAL SPATULAS

Item #	Description	Image
--------	-------------	-------

Maumenee-Barraquer Vitreous Sweep Spatula

Angled shaft, 11mm from bend to tip, spatula blade tip. Round handle. Overall length: 120mm.

AH5124	Maumenee-Barraquer Spatula, Right Right-hand use.	
AH5125	Maumenee-Barraquer Spatula, Left Left-hand use.	

Speculums

The image features a dark blue background with a subtle grid pattern of lighter blue lines. A prominent horizontal bar with a blue-to-white gradient spans the width of the page, positioned below the title. The title 'Speculums' is rendered in a clean, white, sans-serif font.

ADJUSTABLE SPECULUMS

Item #	Description	Image
Cook Eye Speculum		
Pediatric size, 10mm solid round blades, 22mm blade spread, temporal approach, locking screw mechanism. Overall length: 57mm.		
AL0340	Cook Eye Speculum	
Kammann Eye Speculum		
Adult size, 16mm closed K-wire fenestrated blades, self-locking mechanism, 27mm blade spread, temporal approach. Overall length: 70mm.		
AL0450	Kammann Eye Speculum	
Lancaster Eye Speculum		
Adult size, 15mm round solid blades, 35mm blade spread that is spring-controlled with locking mechanism, temporal approach. Overall length: 69mm.		
AL0390	Lancaster Eye Speculum	
Lester-Burch Eye Speculum		
Adult size, 21mm round solid blades, 32mm blade spread, temporal approach, locking screw mechanism. Overall length: 82mm.		
AL0400	Lester-Burch Eye Speculum	

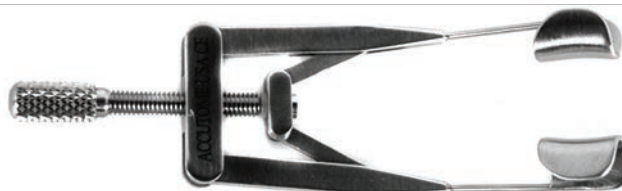

ADJUSTABLE SPECULUMS

Item # **Description** **Image**

Lieberman Adjustable Speculum

Adult and pediatric size Lieberman adjustable speculums available in various blade sizes. The options of titanium or stainless steel with temporal, nasal, and reversible approaches are available. Lid tension is adjustable with thumb-screw control.

AL0521 S **Round, Solid Speculum**
 Pediatric size, 10mm round solid blades, temporal approach.
 Overall length: 73mm.

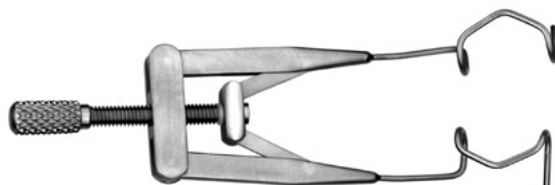

AL0520 S **Round, Solid Speculum**
 Adult size, 14mm round solid blades, reversible approach. Overall length: 90mm.

AL0520 N/K **K-Wire Speculum**
 Adult size, 14mm square open K-wire blades, nasal approach.
 Overall length: 83mm.

AL0520 N/V **V-Wire Speculum**
 Adult size, 14mm open V-wire blades with no flare, nasal approach. Overall length: 83mm.

AL0520 T/K **K-Wire Speculum**
 Adult size, 15mm open K-wire blades, temporal approach. Overall length: 90mm.

AL0520 T/K TI **K-Wire Speculum**
 Adult size, titanium, 15mm open K-wire blades, temporal approach. Overall length: 90mm.

AL0520 T/V **V-Wire Speculum**
 Adult size, 15mm open V-wire blades, temporal approach. Overall length: 90mm.

AL0520 T/V TI **V-Wire Speculum**
 Adult size, titanium, 15mm V-wire blades, temporal approach. Overall length: 90mm.

ADJUSTABLE SPECULUMS

Item #	Description	Image
AL0523 T/K	<p>K-Wire Speculum</p> <p>Designed for use during femtosecond cataract surgery. Adult size, 15mm open K-wire blades, temporal approach. Blades are covered in silicone tubing for patient comfort as well as for pushing back the conjunctiva. Overall length: 85mm.</p>	
AL0523 T/V	<p>V-Wire Speculum</p> <p>Designed for use during femtosecond cataract surgery. Adult size, 15mm open V-wire blades, temporal approach. Blades are covered in silicone tubing for patient comfort as well as for pushing back the conjunctiva. Overall length: 85mm.</p>	
AL0525	<p>Round, Solid Speculum</p> <p>Adult size, 15mm round solid, thin blades, temporal approach. Overall length: 76mm.</p>	

Schott Eye Speculum

Adult size, 16mm round closed wire blades, temporal approach, rotatable adjustment for control of blade elevation. Overall length: 140mm.

AL0480	<p>Schott Eye Speculum</p>	
--------	-----------------------------------	--

Williams Eye Speculum

Both adult and pediatric sizes are available in this Williams Eye Speculum. Various blade sizes and spread that are temporal in approach. Comes with a spring-controlled blade spread with screw-type locking mechanism.

AL0490	<p>Adult Eye Speculum</p> <p>Adult size, 14mm closed K-wire blades, 52mm blade spread. Overall length: 86mm.</p>	
AL0500	<p>Pediatric Eye Speculum</p> <p>Pediatric size, 11mm closed K-wire blades, 41mm blade spread. Overall length: 69mm.</p>	

ASPIRATING SPECULUMS

Item #	Description	Image
--------	-------------	-------

Lieberman Aspirating Speculum

Adult size, 12mm open K-wire blades, temporal approach, lid tension adjustable with thumb-screw control, supplied with silicone tubing and luer-lock adapter. Overall length: 82mm.

AL0530	Lieberman Aspirating Speculum	
--------	---	--

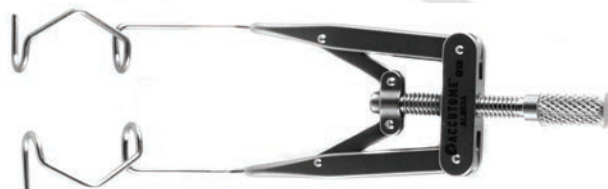

Machat LASIK Speculum

Aspirating and non-aspirating Machat LASIK speculums. Both are adult size with 17mm open V-wire blades, temporal approach, and have thumb-screw control for lid tension. Overall length: 76mm.

AL0533	Machat Aspirating Speculum Aspirating speculum.	
--------	--	--

AL0534	Machat Adjustable Speculum Non-aspirating speculum.	
--------	--	--

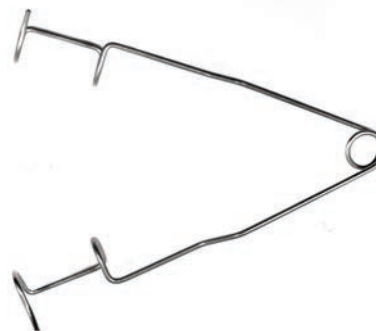

WIRE SPECULUMS

Item #	Description	Image
--------	-------------	-------

Varley LASIK/Femtosecond Lid Speculum

Adult size, 14mm open K-wire blades with modified bent shafts, 0.039 stainless steel wire, 30mm blade spread, temporal approach. Overall length: 60mm.

AL3190	Varley LASIK/Femtosecond Lid Speculum	
--------	---	--

WIRE SPECULUMS

Item #	Description	Image
--------	-------------	-------

Alfonso Eye Speculum

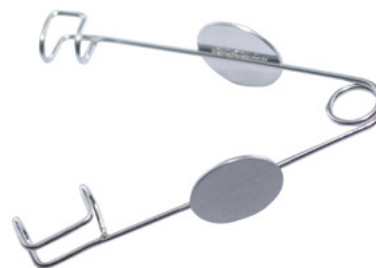

Newborn size speculums available in both regular wire and heavy wire. 5mm closed K-wire blades with 27mm spread, temporal approach. Dull finish. Overall length: 45mm.

AL0300	Wire Newborn Speculum	
--------	------------------------------	--

Standard wire.

AL0301	Heavy Wire Newborn Speculum	
--------	------------------------------------	--

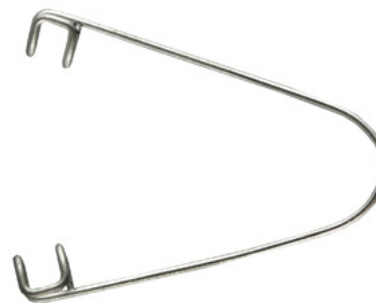

Heavy wire.

**Barraquer Lid Speculum**

A variety of Barraquer eye speculums in both adult and pediatric sizes. Solid, closed, and open blades that are both temporal and nasal in approach are available.

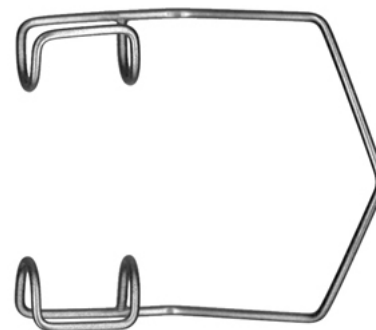

AL0190	K-Wire Speculum	
--------	------------------------	--

Infant size, 4mm open K-wire blades, 15mm blade spread, temporal approach. Overall length: 31mm.

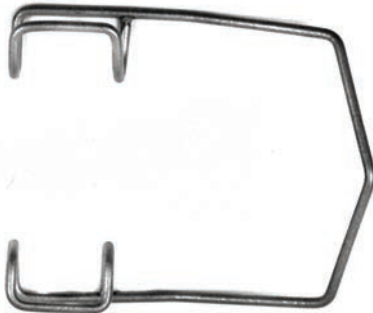

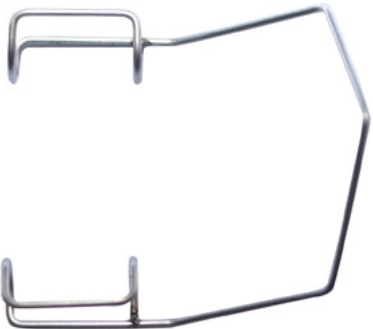

AL0141	K-Wire Speculum	
--------	------------------------	--

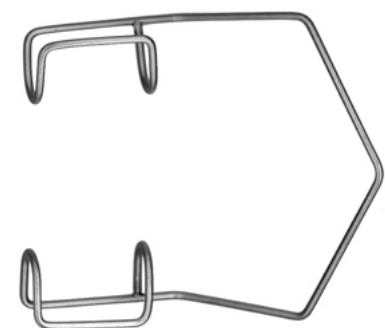

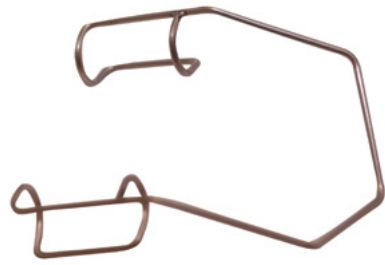

Pediatric size, 8mm closed K-wire blades, 15mm blade spread, temporal approach. Overall length: 32mm.

AT0241	<p data-bbox="261 1186 479 1207">Single-Layer Metal Tray</p> <p data-bbox="261 1222 787 1270">Single layer with pin mat and retainers. External size: 10.5"W x 10.5"L x 1.5"H. Internal size: 9.84"W x 10.2"L x 1.23"H.</p>	

PLASTIC TRAYS

Item #	Description	Image
Diamond Knife Tray		
Plastic single-layer tray. Includes base, lid, and holder for up to three knives. Loose lid. Small size - 2.5"W x 6"L x 0.75"H.		
AT0200	Diamond Knife Tray	
Plastic Microsurgical Instrument Sterilization Tray		
Various plastic microsurgical trays used for instrument sterilization with lid and silicone finger mats. Comes in a variety of different sizes. Loose lid.		
AT0155	Accutome Sterilization Tray, Small	
Plastic single-layer tray. Includes base, lid, and silicone finger mat. Small size - 4"W x 7.5"L x 1.5"H.		
AT0210	Accutome Sterilization Tray, Small	
Plastic single-layer tray. Includes base, lid, and silicone finger mat. Small size - 2.5"W x 6"L x 0.75"H.		
AT0225	Accutome Sterilization Tray, Small	
Plastic single-layer tray. Includes base, lid, and silicone finger mat. Small size - 4"W x 7.5"L x 0.75"H.		
AT0190	Accutome Sterilization Tray, Medium	
Plastic single-layer tray. Includes base, lid, and silicone finger mat. Medium size - 6"W x 10"L x 0.75"H.		
AT0195	Accutome Sterilization Tray, Medium	
Plastic single-layer tray. Includes deep base, lid, and silicone finger mat. Medium size - 6"W x 10"L x 1.5"H.		

PLASTIC TRAYS

Item #	Description	Image
AT0170	<p>Accutome Sterilization Tray, Medium</p> <p>Plastic double-layer tray. Includes extra-deep base, insert tray, lid, and two silicone finger mats. Medium size - 6"W x 10"L x 1.5"H.</p>	

AT0160	<p>Accutome Sterilization Tray, Large</p> <p>Plastic single-layer tray. Includes base, lid, and silicone finger mat. Large size - 10"W x 15"L x 0.75"H.</p>	
--------	--	--

Plastic Phaco Instrument Sterilization Tray

Plastic Phaco single-layer instrument sterilization trays come with a base, lid, bars, and slots. Loose lid.

AT0600	<p>1-Slot Phaco Tray</p> <p>Includes base, lid, 2 bars, and 1 slot. Medium size - 6"W x 10"L x 1.5"H.</p>	
AT0601	<p>3-Slot Phaco Tray</p> <p>Includes base, lid, 2 bars, and 3 slots. Medium size - 6"W x 10"L x 1.5"H.</p>	

Sterilization Tray Replacement Mat

Silicone finger mat for use in Accutome medium sterilization tray (AT0170). Light blue in color and has perforated bottom for draining. Medium size - 6"W x 10"L.

Trephines & Punches

DISPOSABLE TREPHINES & PUNCHES

Item #	Description	Image
--------	-------------	-------

Disposable Radial Vacuum Trephine

Our sterile, single-use vacuum trephines consistently create accurate and uniform cuts by dividing the corneal chamber into 16 chambers, thus reducing corneal distortion. The ergonomic grip allows for easier control while making precision cuts on patient corneas. 16 radial marks allow for easy suture placement. Sold individually.

AB-67600	6.00mm Disposable Trephine 6.00mm diameter.
AB-67650	6.50mm Disposable Trephine 6.50mm diameter.
AB-67700	7.00mm Disposable Trephine 7.00mm diameter.
AB-67725	7.25mm Disposable Trephine 7.25mm diameter.
AB-67750	7.50mm Disposable Trephine 7.50mm diameter.
AB-67775	7.75mm Disposable Trephine 7.75mm diameter.
AB-67800	8.00mm Disposable Trephine 8.00mm diameter.
AB-67825	8.25mm Disposable Trephine 8.25mm diameter.
AB-67850	8.50mm Disposable Trephine 8.50mm diameter.
AB-67875	8.75mm Disposable Trephine 8.75mm diameter.
AB-67900	9.00mm Disposable Trephine 9.00mm diameter.

Vacuum Donor Punch

Our sterile, single-use vacuum donor punches have an ultra-sharp cutting blade for making precision cuts of the donor tissue for corneal transplants. The punches feature four guide posts that ensure proper alignment. Sold individually.

AB-60600	6.00mm Disposable Punch 6.00mm diameter.
AB-60625	6.25mm Disposable Punch 6.25mm diameter.
AB-60650	6.50mm Disposable Punch 6.50mm diameter.
AB-60675	6.75mm Disposable Punch 6.75mm diameter.
AB-60700	7.00mm Disposable Punch 7.00mm diameter.
AB-60725	7.25mm Disposable Punch 7.25mm diameter.
AB-60750	7.50mm Disposable Punch 7.50mm diameter.

REUSABLE TREPHINES & PUNCHES

Item #	Description	Image
Long Reusable Trephine Blade		
Stainless steel, long, reusable trephine blades range in diameter from 2mm to 16mm. All blades are 15mm in length and are sold individually.		
AM0570 20	2mm Long Trephine 2mm diameter blade tip.	
AM0570 25	2.5mm Long Trephine 2.5mm diameter blade tip.	
AM0570 30	3mm Long Trephine 3mm diameter blade tip.	
AM0570 40	4mm Long Trephine 4mm diameter blade tip.	
AM0570 45	4.5mm Long Trephine 4.5mm diameter blade tip.	
AM0570 50	5mm Long Trephine 5mm diameter blade tip.	
AM0570 60	6mm Long Trephine 6mm diameter blade tip.	
AM0570 65	6.5mm Long Trephine 6.5mm diameter blade tip.	
AM0570 67	6.75mm Long Trephine 6.75mm diameter blade tip.	

REUSABLE TREPHINES & PUNCHES

Item #	Description	Image
AM0570 70	7mm Long Trephine 7mm diameter blade tip.	
AM0570 72	7.25mm Long Trephine 7.25mm diameter blade tip.	
AM0570 75	7.5mm Long Trephine 7.5mm diameter blade tip.	
AM0570 77	7.75mm Long Trephine 7.75mm diameter blade tip.	
AM0570 80	8mm Long Trephine 8mm diameter blade tip.	
AM0570 82	8.25mm Long Trephine 8.25mm diameter blade tip.	
AM0570 85	8.5mm Long Trephine 8.5mm diameter blade tip.	
AM0570 87	8.75mm Long Trephine 8.75mm diameter blade tip.	
AM0570 90	9mm Long Trephine 9mm diameter blade tip.	
AM0570 95	9.5mm Long Trephine 9.5mm diameter blade tip.	
AM0570 100	10mm Long Trephine 10mm diameter blade tip.	
AM0570 105	10.5mm Long Trephine 10.5mm diameter blade tip.	
AM0570 110	11mm Long Trephine 11mm diameter blade tip.	
AM0570 115	11.5mm Long Trephine 11.5mm diameter blade tip.	
AM0570 140	14mm Long Trephine 14mm diameter blade tip.	
AM0570 15	15mm Long Trephine 15mm diameter blade tip.	
AM0570 160	16mm Long Trephine 16mm diameter blade tip.	

REUSABLE TREPHINES & PUNCHES

Item #	Description	Image
Universal Trephine Blade Holder		
Stainless steel, adjustable fingerlike tips that rest in the grooved disposable trephine blades, fits 3mm to 10mm short and long trephine blades. Round handle with screw-type adjustable spread. Overall length: 49mm.		
AM0510	Universal Trephine Blade Holder	

Sutures

NYLON

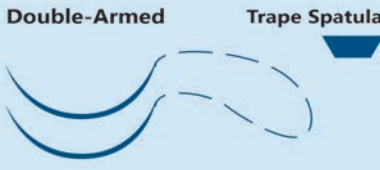

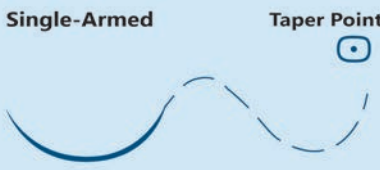

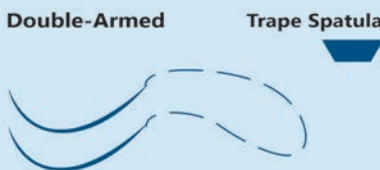

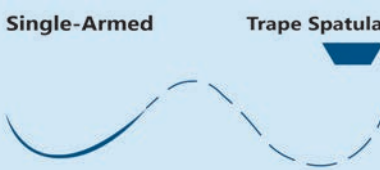

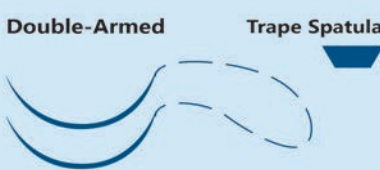

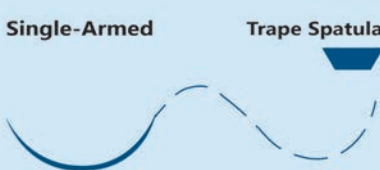

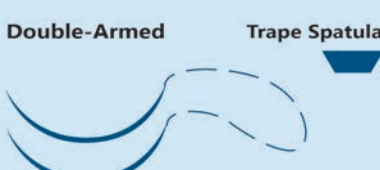

Item # **Description** **Image**

Sutures 11-0 Nylon

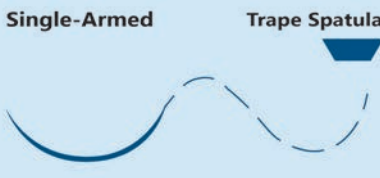

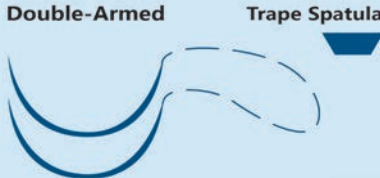

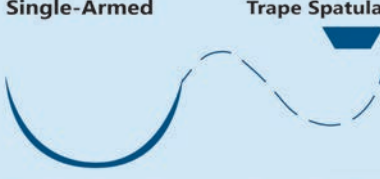

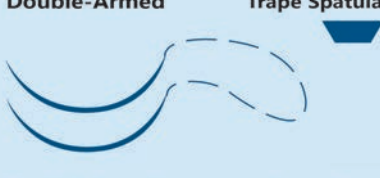

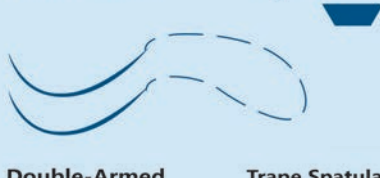

Mani brand 11-0, black mono, nylon sutures with both single and double arms. Taper point and trape spatula needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the “cross-lapped edge” technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

AB-0550S	<p>Nylon Suture, Taper Point</p> <p>Single-armed suture, measures 13cm in length. Sutures 9-0 Nylon

Mani brand 9-0, black mono, nylon sutures with both single and double arms. Trape spatula needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

Sutures 7-0 Nylon

Mani brand 7-0, black mono, nylon sutures with both single and double arms. Trape spatula, lancet, cut taper, and reverse cut needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

Sutures 6-0 Nylon

Mani brand 6-0, black mono, nylon sutures with both single and double arms. Trape spatula, lancet, cut taper, and reverse cut needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

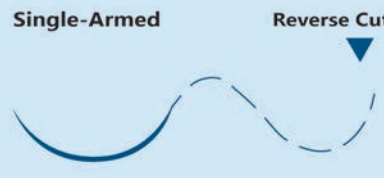

AB-2808 **Nylon Suture, Reverse Cut**
 Double-armed suture, measures 30cm in length. Reverse cut needle, measures 13.0mm in length, 3/8 curve, and 0.28mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	30
Size	6-0 (0.7 metric)

Needle	
Length (mm)	13.0
Curve	3/8
Diam. (mm)	0.28

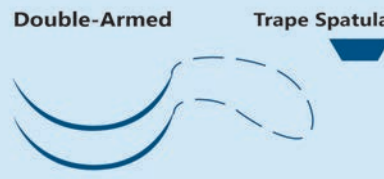

AB-2808S **Nylon Suture, Reverse Cut**
 Single-armed suture, measures 20cm in length. Reverse cut needle, measures 13.0mm in length, 3/8 curve, and 0.28mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	20
Size	6-0 (0.7 metric)

Needle	
Length (mm)	13.0
Curve	3/8
Diam. (mm)	0.28

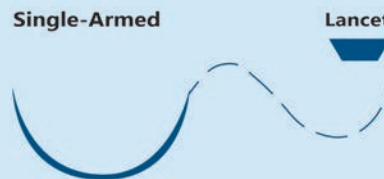

AB-2854 **Nylon Suture, Trape Spatula**
 Double-armed suture, measures 45cm in length. Trape spatula needle, measures 8.0mm in length, 3/8 curve, and 0.28mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	45
Size	6-0 (0.7 metric)

Needle	
Length (mm)	8.0
Curve	3/8
Diam. (mm)	0.28

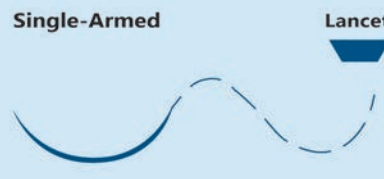

AB-3363S **Nylon Suture, Lancet**
 Single-armed suture, measures 45cm in length. Lancet needle, measures 13.0mm in length, 1/2 curve, and 0.33mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	45
Size	6-0 (0.7 metric)

Needle	
Length (mm)	13.0
Curve	1/2
Diam. (mm)	0.33

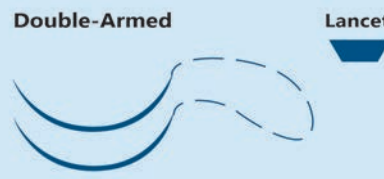

AB-3379S **Nylon Suture, Lancet**
 Single-armed suture, measures 30cm in length. Lancet needle, measures 7.0mm in length, 3/8 curve, and 0.33mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	30
Size	6-0 (0.7 metric)

Needle	
Length (mm)	7.0
Curve	3/8
Diam. (mm)	0.33

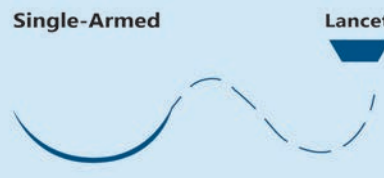

AB-3382 **Nylon Suture, Lancet**
 Double-armed suture, measures 50cm in length. Lancet needle, measures 11.0mm in length, 3/8 curve, and 0.33mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	50
Size	6-0 (0.7 metric)

Needle	
Length (mm)	11.0
Curve	3/8
Diam. (mm)	0.33

AB-3382S **Nylon Suture, Lancet**
 Single-armed suture, measures 45cm in length. Lancet needle, measures 11.0mm in length, 3/8 curve, and 0.33mm in diameter.

Suture	
Description	Nylon, Black Mono
Length (cm)	45
Size	6-0 (0.7 metric)

Needle

Sutures 5-0 Nylon

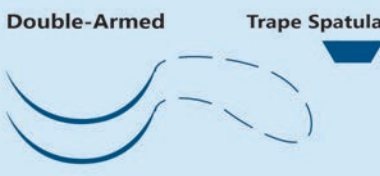

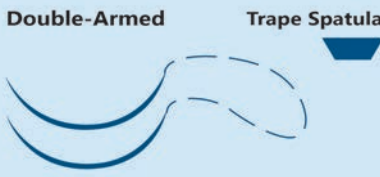

Mani brand 5-0, black mono, nylon sutures with both single and double arms. Lancet, reverse cut, dia spatula, and trape spatula needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

Sutures 4-0 Polyester

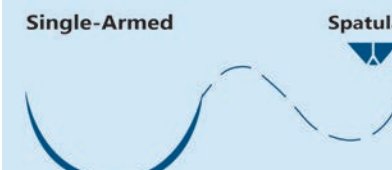

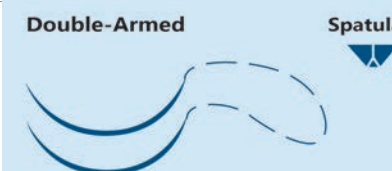

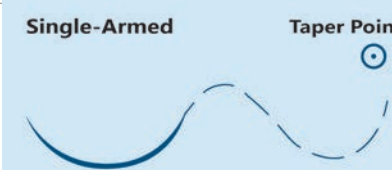

Mani brand 4-0, green or white braided, polyester sutures with double arms. Trape spatula and dia spatula needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

SILK

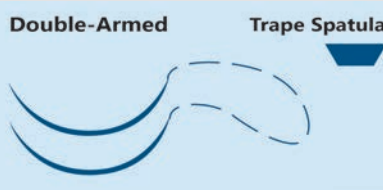

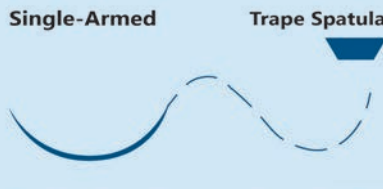

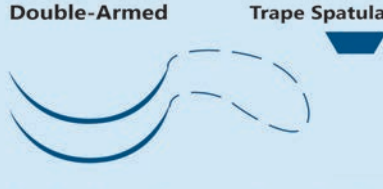

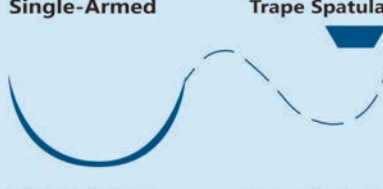

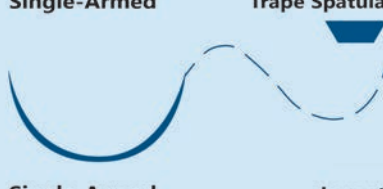

Item #	Description	Image																
Sutures 8-0 Silk																		
Mani brand 8-0, black braided, silk sutures with both single and double arms. Trape spatula needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

Sutures 5-0 Silk

Mani brand 5-0, black braided, silk sutures with both single and double arms. Lancet, reverse cut, and taper point needles ranging in length, curve, and diameter. Mani sutures are ideal for micro-suturing on the cornea and sclera during eye surgery. Ultimate sharpness is obtained through the "cross-lapped edge" technique giving each suture a fine and sharp tip ensuring minimally invasive wound closure. Mani hard fiber stainless steel is used to make strong and break-resistant needles. Sold 12 per box.

Derma Prene Ultra Surgical Gloves

The Ansell Derma Prene Ultra surgical glove is powder-free and made from latex-free neoprene. It is a good choice for latex-sensitive (Type I) and chemical-sensitive (Type IV) health-care professionals and patients. The Derma Prene Ultra is dark green in color for instant identification as a natural rubber latex-free glove. The glove is typically 12 inches in length and has an enhanced, beaded cuff and SureFit Technology for extra coverage and protection on the forearm, and to maintain the glove's position on surgical gowns. Hand-specific, sterile, powder-free smooth surface. Straight cuffs, intended for single use. 11.9" long with 0.19mm fingertip thickness. Sold 50 pairs per box.

**Encore Acclaim Surgical Gloves**

The Encore Acclaim is Ansell's premier powder-free surgical glove made from natural rubber latex. The glove's thickness allows for a comfortable fit and excellent tactile sensitivity during surgical procedures in a single- or double-gloving environment. Its smooth finish provides worry-free instrument and suture control, and its low allergen levels help reduce the risk of latex sensitization in health-care workers and patients. Hand-specific, sterile, powder-free ivory gloves with smooth surface. Beaded cuffs, intended for single use, 11.5" long with 0.25mm fingertip thickness. Sold 50 pairs per box.

Triflex Surgical Gloves

Triflex sterile surgical gloves have an anti-slip finish for a firm grip and mechanically locking cuffs that prevent rolldown. Extensive rinse cycles on the gloves reduces latex allergens and proteins. Hand-specific, sterile, powdered, ivory-colored gloves with a smooth surface. Each glove has beaded cuffs and is intended for single use. 12" in length with a 0.23mm fingertip thickness. Manufactured by Cardinal. Sold 40 pairs per box.

AXI1455	Triflex Gloves, Size 7.5 Size 7.5 surgical gloves.
AXI0683	Triflex Gloves, Size 8 Size 8 surgical gloves.

Triumph Green Surgical Gloves

AORN, the CDC, the American College of Surgeons, and the American Academy of Orthopedic Surgeons recommend double gloving during invasive procedures. Triumph Green latex powder-free surgical gloves are ideal when double gloving with Aloetouch Natural, Triumph, or Triumph LT. Made from low-protein natural rubber latex with synthetic polymer coating. Dark green-colored gloves with a smooth surface coated in aloe and polymer. Each glove has beaded cuffs and is intended for single use. 12" in length with a 8.5mm fingertip thickness. Manufactured by Medline. Sold 50 pairs per box.

AXI3975	Triumph Gloves, Size 7
---------	-------------------------------

Triumph LT Surgical Gloves

All of Medline's powder-free gloves have a proprietary inner polymer coating, which allows for easy donning and double gloving. The Triumph LT Sterile Latex Powder-Free Surgical Glove is a standard-thickness glove that can be used alone or as an outer glove when double gloving over Medline's Aloetouch Latex-Free Powder-Free Surgical Glove. The unique beaded cuff is reinforced to resist tearing. Sterile, white-colored gloves with a lightly textured surface coated with synthetic polymer donning agent. Each glove has beaded cuffs and is intended for single use. 12" in length with a 23mm fingertip thickness. Manufactured by Medline. Sold 50 pairs per box.

Comply Instrument Protector

3M Comply Instrument Protectors, protect sharp-pointed surgical instruments from damage and reduces possibility of pouch puncture during sterilization. It protects sharp surgical instruments from damage while holding them open for full sterilant contact. Dual indicators on the protector verify steam or EO processing. White instrument protector that measures 2 x 5 inches and is latex-free. Sold 100 per box.

AXI3932 [White Instrument Protector](#)

Osteotome Instrument Tip Guard

Designed to protect osteotome instrument edges from chipping during sterilization, storage, and handling. Covers can reduce monthly repair or replacement costs by meeting protection needs. Clear, non-vented osteotome instrument tip protector. Measures 6.4mm x 19mm. Nonsterile and latex-free. Sold 50 per bag.

AXI0806 [Clear Instrument Guard](#)

Round Instrument Tip Guard

Rounded tip guards designed to protect medical instruments from damage during sterilization, storage, and handling. Covers can reduce monthly repair or replacement costs by meeting protection needs. Blue-tinted, vented instrument tip protectors. Measures 38.1mm in length and fits 3mm to 4mm tips. Nonsterile and latex-free. Sold 70 per bag.

Cleaning & Sterilizing

DIAMOND KNIFE CLEANING SYSTEMS

Item #	Description	Image
Opti-Kleen		
<p>Accutome recommends the Opti-Kleen blade cleaning system for the care and cleaning of diamond knives. This is an efficient and safe method for cleaning tissue and other debris from the surfaces of diamond knife blades prior to sterilization. The Opti-Kleen blade cleaning system comes with 12 individual disposable trays per dispenser box. A holding tray with cover can also be purchased to cradle the cleaning system trays. The Opti-Kleen blade cleaning system can be used throughout the day for both diamond knives and delicate instruments. Each new instrument should be cleaned in an area of the pad that has not already been used.</p>		
AXII396	<p>Opti-Kleen Blade Cleaning System</p> <p>Each tray has three cleaning sections: a scrubbing section and two rinse sections. Sold 12 individual trays per box. Does not include plastic holder.</p>	
AXII397	<p>Opti-Kleen Holding Tray</p> <p>Plastic holder for disposable cleaning system trays.</p>	

INDICATOR STRIPS

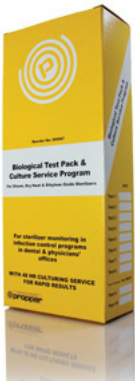

Item #	Description	Image
Biological Indicator Incubator		
<p>3M Attest Incubator provides optimal incubation conditions for the accurate readout of 3M Attest biological indicators. Since the growth of each test organism is temperature dependent, it is critical that the appropriate Attest biological indicator be used with the correct Attest incubator. Biological indicator incubator, 14-vial (round), 56°C steam, 120 nominal voltage required, 90-132V acceptable.</p>		
AXI4154	<p>Biological Indicator Incubator</p>	

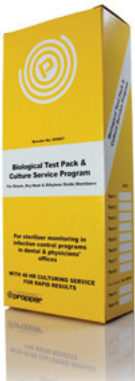

INDICATOR STRIPS

Item #	Description	Image
--------	-------------	-------

Biological Indicator Test Pack

Complete biological indicator test packs that includes everything needed for the monitoring of the steam sterilization process. For clinics, medical, and veterinary offices. The Centers for Disease Control and Prevention and AAMI recommend a weekly biological indicator challenge of all sterilizers. This is important to help prevent cross-contamination and to protect patients and medical professionals from infection that can result from a faulty sterilizer or its incorrect operation.

AXI2069	<p>Biological Test Pack and Culture Service Program</p> <p>Test results are uploaded daily to a secure online database and you will be provided a permanent record of test results. Spore testing is one of the most dependable methods to monitor sterilization. This is a complete system that includes a culture service program. Each box contains 10 test packs, 10 sterilization report forms, 10 pre-addressed postage paid envelopes and instructions for use. Takes 48 hours for culturing service. Sold 10 tests per box.</p>	
---------	--	---

AXI5689	<p>Biological Indicator Test Pack</p> <p>The 3M Attest incubator provides optimal incubation conditions for the accurate readout of 3M Attest biological indicators. Biological indicator incubator, 14-vial (round), 56°C steam, 120 nominal voltage required, 90-132V acceptable. Kit includes: incubator, 1 roll tape, 1 box biological indicators, 1 bag chemical indicators, the log book, inservice video, and wall chart. Sterilization is indicated with color change and takes 48 hours for test results. Latex-free.</p>	
---------	---	---

Biological Indicator Vial

Various brand biological indicators provide the best assurance of sterility by challenging the steam sterilizer with quantifiable, highly resistant *Geobacillus stearothermophilus* spores and providing results quickly. Biological indicators are used for load control monitoring, which is the process by which a load is monitored and released based on the result of a biological indicator (BI) in a test pack.

AXI3167	<p>3M Biological Indicator Vial</p> <p>The 3M Attest system provides results within 48 hours. The self-contained BI for 250°F/121°C gravity and 270°F /132°C vacuum-assisted steam cycles consist of a <i>Geobacillus stearothermophilus</i> spore strip, sealed glass ampule with growth medium and a bromocresol purple pH indicator system, brown color-coded cap with holes for sterilant penetration and a filter as a bacterial barrier, and a chemical indicator on the label that changes from rose to brown when processed. After sterilization, the vial is "crushed" to join the growth media with the processed spore strip. The BI is incubated for 48 hours for a visual color change readout. A color change to yellow indicates surviving spores and a positive result. Store at USP controlled room temperature. Sold 25 vials per box.</p>	
---------	---	--

INDICATOR STRIPS

Item #	Description	Image
AXI4267	<p>3M Biological Indicator Vial</p> <p>The 3M Attest system provides results within 24 hours. 3M Attest I261 biological indicators for 270°F/132°C gravity steam cycles. Self-contained BI for 270°F/132°C gravity steam cycles consists of a <i>Geobacillus stearothermophilus</i> spore strip, sealed glass ampule with growth medium and a bromocresol purple pH indicator dye system, blue color-coded cap with holes for sterilant penetration and a filter as a bacterial barrier, and a chemical indicator on the label that changes from rose to brown when processed. After sterilization, the vial is "crushed" to join the growth media with the processed spore strip. The BI is incubated for 24 hours for a visual color change readout. A color change to yellow indicates surviving spores and a positive result. Store at USP controlled room temperature. Latex-free. Sold 100 per box.</p>	
AXI3258	<p>3M Biological Indicator Vial</p> <p>The 3M Attest system includes rapid readout biological indicators, disposable test packs, an auto-reader, and log books. 3M Attest I291 rapid readout biological indicators for 132°C/270°F gravity displacement cycles. Self-contained BI for gravity displacement cycles consisting of a <i>Geobacillus stearothermophilus</i> spore strip, sealed glass ampule with growth medium and dual indicator system, blue color-coded cap with holes for sterilant penetration and a filter as a bacterial barrier, and a chemical indicator on the label that changes from rose to brown when processed. After sterilization, the vial is "crushed" to join the growth media with the processed spore strip. The BI is incubated for 1 hour in the 3M Attest 290 series auto-reader for a fluorescent reading. Note: This product must be used with Cat. No. 290 3M Attest auto-reader. This product is latex-free. Sold 50 per box.</p>	
AXI4475	<p>Ster-All Biological Indicator Vial</p> <p>Ster-All Performance Self-Contained Steam BI is for use in monitoring 60-degree celsius steam sterilization processes. Final readout takes only 24 hours and fits in existing incubators. Latex-free. Sold 25 tests per box.</p>	
AXI4993	<p>Ster-All Biological Indicator Vial</p> <p>Ster-All Performance Self-Contained Steam BI is for use in monitoring 60-degree celsius steam sterilization processes. Final readout takes only 24 hours and fits in existing incubators. Latex-free. Sold 100 tests per box.</p>

AXI5461

ProSpore2 Biological Indicator Vial

ProSpore2 is ideal for in-office validation and monitoring of steam sterilizers. It consists of a paper disk carrier containing *Geobacillus stearothermophilus* spores. The disk is enclosed in a plastic tube along with a glass vial containing media for growing the bacterial spores. Bromocresol purple has been added to assist in detecting spore growth. The outgrowth of spores decreases pH, causing a color change from purple to yellow. A shorter incubation period allows a validated 24-hour result. Includes biological indicators, testing incubator, record-keeping system, and vial crusher. Sold 50 per box.

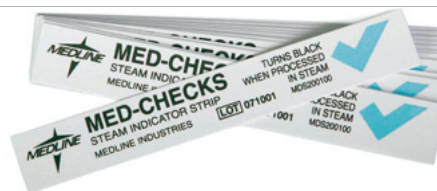

Class 4 Steam Indicator Strip

These class 4 steam indicator strips have a distinctive, color change feature when exposed to steam sterilization. Ranges in size and colors.

AXI0400

Medline Sterilization Indicator Strip

Class 4 steam indicator strip that measures 4”L x 1.25”W x 1.5”H and has a distinctive, non-reversible color change from blue to black. These strips contain latex, and are for use in gravity and vacuum cycles. Sold 250 per box.

AXI5672

3M Steam Indicator Strip

3M Comply class 4 steam indicator strip that measures 0.625”W x 4.25”L in short form, which is convenient for smaller packs. Has a distinctive color change from yellow to black and can be used in all steam sterilizers. These strips are latex-free and are for use as an internal pack monitor for 250-270°F processes. Sold 250 per box.

AXI3832

3M Steam Indicator Strip

3M Comply class 4 steam indicator strip that measures 0.625”W x 8”L and have a distinctive color change from off-yellow to black. It can be used in all steam sterilizers and is perforated, allowing for full- or half-length use for different pack sizes. These strips are latex-free and are for use as an internal pack monitor. Store at USP controlled room temperature. Sold 240 per box.

AXI4058

Medline Steam Indicator Strip

These measure the time, temperature, and presence of steam in steam sterilizers. They use a distinctive color change from purple to green and are made of laminated plastic. Measures 4” in length and are to be used for Cidex OPA tests. Latex-free. Sold 250 per box.

INDICATOR STRIPS

Item #	Description	Image
--------	-------------	-------

Class 5 Steam Indicator Strip

As an internal pack monitor, the 3M Comply (SteriGage) Class 5 Steam Chemical Integrators offer immediate, accurate and easy to read method of monitoring the sterilization process conditions inside each pack. It can be used in all steam sterilizers. The easy-to-read moving front style has been shown to have a higher reading accuracy than color interpretation style indicators. Use in steam sterilization cycles at 250°F, 270°F, 273°F, and 275°F. Measures 0.75"W x 2"L and are latex-free. Takes 15 minutes, depending on temperature.

AXI3038	3M Steam Indicator Strip Sold 100 per bag.
---------	--

AXI4291	3M Steam Indicator Strips Sold 500 per bag.

INDICATOR STRIPS

Item #	Description	Image
--------	-------------	-------

OK Steam Sterilization Strip

OK Steam Sterilization Strips are indicators that monitor all critical sterilization parameters: steam, time, and temperature. In sterilization cycles, OK strips guard against incomplete steam penetration, presence of non-condensing gases or excessive air, as well as from inadequate temperature or insufficient time exposure. The pre-printed standard reference color permits rapid and certain visualization of the results. If the sterilization conditions meet requirements, the arrow and the K will change to become at least as dark as the reference color "O" forming the OK expression. The indicator dot printed on the distal end of the 8" strip permits a secure sterile presentation. Only if this dot is dark may sterile personnel handle the strip and the package contents. Without such assurance, contamination of personnel becomes a real risk. For steam sterilization cycles of 250°F (121°C) and 272°F (134°C). Measures 0.56"W x 4"L. Sold 250 per box.

AXI3984 **OK Steam Sterilization Strips**

Steam Indicator Tape

Surgical instrument sterilization tape is used to seal sterilization packs or wraps. The tape will visually indicate that the pack has been exposed to the steam sterilization cycle by its distinctive, non-reversible color change from beige to black. Lead-free ink means no hazardous waste issues. The tape material has a stretchable backing that minimizes tape "pop-off" during sterilization. This tape can also be written on or labeled with pre-printed labels. Sold individually.

AXI3347 **0.94-Inch Steam Indicator Tape**
 3M Comply lead-free steam indicator tape measures 0.94 inch x 60 yards.

AXI5487 **0.70-Inch Steam Indicator Tape**
 3M Comply lead-free steam indicator tape measures 0.70 inch x 60 yards.

AXI5181 **1-Inch Steam Indicator Tape**
 McKesson steam indicator tape measures 1 inch x 60 yards. Contains latex.

AXI1290 **1-Inch Steam Indicator Tape**
 Medline steam indicator tape measures 1 inch x 60 yards. Contains latex.

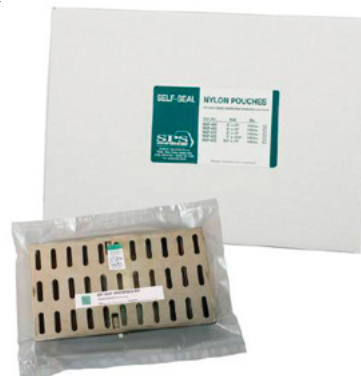

STERILIZATION POUCHES

Item #	Description	Image
--------	-------------	-------

Dry-Heat Sterilization Pouch

Nylon packaging products are manufactured for use with dry heat processes up to 420°F. Nylon material is clear, strong and puncture resistant, maintaining a durable barrier for instrumentation until point of use. These self-seal nylon pouches feature built-in adhesive tape which eliminates the need for a heat sealer or indicator tape. Each pouch is notched for ease of opening after processing, and complimentary external chemical indicator labels are included. Sold 100 per box.

AXI4271	2" Sterilization Pouch 2" x 10" sterilization pouch.
AXI1038	3" Sterilization Pouch 3" x 10" sterilization pouch.
AXI1013	4" Sterilization Pouch 4" x 10" sterilization pouch.
AXI4457	7" Sterilization Pouch 7" x 10.5" sterilization pouch.
AXI5736	9.5" Sterilization Pouch 9.5" x 13" sterilization pouch.

Steam Sterilization Pouch

Various sizes and brands of sterilization pouches. All pouches are transparent for easy viewing and are compatible for EO gas/steam sterilization. Sold 200 per box.

AXI1638	3.5" Sterilization Pouch 3.5" x 5.25" View Pack sterilization pouch. Patented triple seal provides an adhesive-to-adhesive, adhesive-to-paper, and adhesive-to-poly closure for a secure, tamper-free barrier. Triple rail seal offers protection exceeding that of one wide seal, resists blowouts, and provides uniform peel when opening. Blue-tinted laminate helps to quickly detect if a hole or tear is present. Highest quality medical grade paper helps prevent fiber tear of the packaging.
---------	--

AXI3288	3.5" Sterilization Pouch 3.5" x 5.25" Sure-Check sterilization pouch with built-in internal/external multi-parameter steam sterilization indicators confirm all sterilization criteria—time, temperature, and presence of steam. Eliminates the extra step of adding separate multi-parameter indicators to each pouch. Meets CDC infection control guidelines for effective sterilization.

QUICKRINSE INSTRUMENT RINSE SYSTEM

Item #	Description	Image
--------	-------------	-------

QuickRinse Cleaning System

The QuickRinse instrument rinse system uses pressurized water and air to rinse lumened instruments and tubing, such as phaco handpieces, vitrectomy cutters, and I/A tubing. Unlike with a syringe, the compact system provides consistent rinsing pressure regardless of the operator. The QuickRinse also eliminates hand fatigue associated with repetitive syringe use. Complete system comes with: operator's manual, console, complete bottle assembly, nose cone rinse attachment, dual rinse "Y" attachment, power cord, power supply, accessory fittings, nylon brush, spare bottle cap gaskets, and spare quick-disconnect O-rings.

Pharmaceutical & Diagnostics

4Sight®

Item No. 24-8000

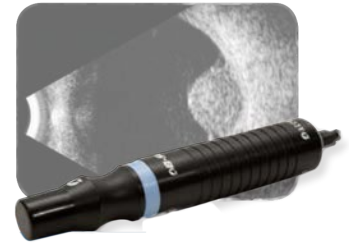

Ophthalmic ultrasound platform that combines the A-Scan, B-Scan, UBM, and Pachymeter in one easy-to-use platform.

A-Scan Plus Connect®

Item No. 24-4400

Portable design and an effective solution for measuring and calculating all of your patients, including dense cataracts, and refining your surgical outcomes.

B-Scan Plus®

Item No. 24-6100

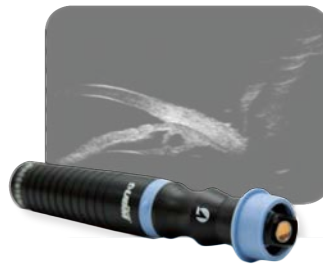

Portable probe that provides HD imaging and assessment of the posterior segment, while a user-friendly interface can store and share information easily.

AccuPen®

Item No. 24-3000

Gravity Offset Technology requires less calibration in any testing position while providing up to 9 accurate IOP measurements that can be stored.

UBM Plus®

Item No. 24-6300

Portable probe that provides HD imaging and assessment of the anterior segment, while a user-friendly interface can store and share information easily.

Pachymeters®

Item No. 24-6200 & No. 24-5100

Accurate and easy-to-use portable or tabletop pachymeter versions that convert IOP measurements in seconds.
